Case No. 39576

STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

IDAHO DEPARTMENT OF WATER RESOURCES
RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

An easement or right of way agreement providing for access to the drain by its owner and those responsible for maintaining it - and/or for access to the drain by the appropriator to divert water pursuant to this right - must be executed among the appropriator, the owner of the drain, and, if appropriate, those responsible for maintaining the drain. Failure to execute such an agreement will constitute grounds for legal action to prevent water from being diverted under this right.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Stockwater use is for 60 sheep.

The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
