

RECOMMENDATION REVIEW:

Date: 10/29/2008
Agent: S. Hemenway
Claimant: United States of America Acting Through USDA Forest Service
WR# 63-30871
Mailing Address: 550 W. Fort St. MSC 033, Boise, Idaho 83724
Phone #: (208) 387-0835
Local Contact: Steve Spencer C/O Boise National Forest 1805 Hwy 16 Room 5, Emmett, ID 83617
Local Contacts Phone #: (208) 365-7055
Location of POD: T4N R13E SEC 3 NENWSW (Changed location to match Topo map and 2004 NAIP maps submitted by Steve Spencer, Forest Service, verifying location)
System Description: rock dam in ditch, dirt ditch, gravity flow to flood irrigate corral
Measuring Device: N/A (Not required with small claims <0.20 cfs, per IDWR Director Dave Tuthill)
Field Exam: 7/29/1997 Field Exam conducted by Forest Service (includes pictures, and flow measurement)
Nonirrigation Uses: Dust Abatement of corral for sheep, at time of shipping.
Other Uses: NONE
Other WRs Used: NONE for this QQ for irrigation (there are some for domestic, and some for stockwater use)
Supplemental Water: NONE
Basis of Claim: Beneficial Use
Priority Date: 8/31/1940
Evidence of Priority: 7/29/1997 Field Exam conducted by Forest Service (includes pictures, flow measurement, and describes when system was constructed, season of use, purpose, etc)
Signed by John Shelly on 7/29/1997.

NOTES:

Forest Service owns entire QQ
flow measurement = 8 gpm X 0.00223 = 0.02 cfs
POD location was changed to match the location determined on topo map and 2004 NAIP map, drawn and submitted by Steve Spencer (Forest Service). The location of POD has always been at the same location. The lat/long for POU was listed but not for the POD. The POD was drawn on a box grid, and the actual location should have been over in the neighboring QQ to the west.

Recommendation:

C18
Explanatory: Place of Use is also known as: South Boise Corral.
Explanatory: Forest Service Record ID: 4-14-17050113-39-0042
