RE: Snake River Basin Adjudication (SRBA)
Your Clients James and Barbara Hilliard
Notice of Claim to a Water Right #2-7025

Thank you for your help today, Jay. It was nice visiting with you.

As I explained during our phone conversation, since this water right is in the name of James and Barbara Hilliard as individuals, they'll need to submit an ownership change form to change their water right(s) into Hilliard Farms. I presume you can execute the change on the form as registered agent. Please mail it to my attention. Once we receive the ownership change form, we'll make the change and then you'll be able to sign the Standard Form 5 (SRBA Court form) as the Registered Agent for the farm.

Please go to our website to print the ownership change form: www.idwr.idaho.gov

When the site opens, in the upper left hand corner move your cursor to Rules, Statutes and Forms. Click on Snake River Basin Adjudication Forms, then click on Notice of Change in Water Right Ownership.

You might also explore further by clicking on Water Management <http://www.idwr.idaho.gov/water/srba/mainpage/>, then Snake River Basin Adjudication, and look at your client's water rights by doing a Text Search.

There is also a link to the SRBA District Court <http://www.idwr.idaho.gov/water/srba/SRBA%20Court/main%20page.htm> on our website where you can find all of their forms and all sorts of good information.

Please give me a call if I can assist you in any way.
