Field Exam Summary Dyke A. Contor

I met with Clyde Stock at the POU on 22 July 2005. The farm is operated by Fred Brog who was not present. Mr. Brog did not have the pump or sprinklers set up at this farm on the date of the exam.

The original POU was lands that could be gravity irrigated by setting a dam in the ditch. I intended to estimate the original acreage using a topo map but the only map available was 1:62,500 which did not have adequate resolution. The "original POU" on the layout illustration that I placed in the file is based on the sketch I made in the field w/ Mr. Stock's guidance. It seems reasonable to me. This shapefile is 46 acres.

The current POU is based on Mr. Stock's description. All the lands he described appear irrigable and had crops growing. This shapefile is 56.7 acres.

Mr. Stock states that there is only enough water in the creek to run one sprinkler line. Assuming 32 nozzles x 5 gallons per minute indicates 160 gpm or 0.36 gfs. While this is less than 0.02 gfs/acre, this is an area of high rainfall so adequate crop production should be obtainable with this reduced diversion rate as a supplement to rainfall.

I prepared an amended claim & enlargement claim to correspond to the irrigation found. These are assessed in a Permissible Use of Water basis.

A24-04076

Summary p2

3 Aug 05

Because the sprinkler system uses a pump that can be set up anywhere along the creek, no GPS readings were taken. The August GPS shapefile includes 6 points that were scaled off the aerial photograph. Points 201, 202, 203, and 204 represent current points of diversion. Points 205 and 206 are approximately where Mr. Stock indicated that canvas dams would have been placed for gravity irrigation historically.

Follow-up 20 Aug 05

Fred Brog showed me the pump, it is a John Deere Diesel w/ centrifugal pump w/ 6" inlet. It was running 4 or 5 lines when we saw it. He states sometimes Shross Creek will run 3 lines.

Pump is Berkeley B4E H809-CW

Engine is John Deere T04039D446800

On Tincup property (A24-04077) Fred states he runs 3 lines x 32 nozzles, 3/16" nozzles. BAC

Re: General narrative regarding Tincup Creek Adjudication claims.

To date I have done field inspections for all the Tincup Creek Adjudication claims which I received in July 2005. I have not been able to contact the owners of A24-02018, A24-04074A, A24-04074B or A24-10015, though I was able to inspect the places of use and points of diversion. At the location I did visit with a Mrs. V. Haderlie who may be a former claimant for A24-04074A and/or A24-04074B. A24-10668 is in the Tincup area but its source is Salt River, with a Wyoming water right and point of diversion. Places of use are illustrated in Figure 1 at the end of the memo.

This memo discusses several considerations that apply to all Tincup Creek water rights in general. It is filed in paper file A24-2000B but applies to all irrigation claims with Tincup Creek as a source, with notes in each of the other claims referencing the memo.

1. Public Land Survey System.

The overlay of county roads, fences, and claimed places of use on the Public Land Survey System shows a misalignment, as illustrated in Figure 1. Older 2000-series licenses and land patents I have examined describe the parcels in terms of whole quarter-quarter sections, as expected. Newer deeds and legal descriptions show the partial quarter-quarters that appear from the map.

My hypothesis is that the original licenses and patents were described according to some kind of preliminary PLS layout that corresponded to the roads, fences and apparent property lines. It seems that later a new PLS survey was performed which resulted in all the partial quarter-quarters in individual parcels.

Based on this hypothesis I have extrapolated the place of use of original license 24-2007 to the claimed places of use based the license. This does not appear to be an accomplished transfer, even though the GIS polygons of my proposed place of use have slightly different legal descriptions than the nominal legal description of the original license. This is illustrated in Figure 2.

Because there are no competing or overlapping claims from this source, I believe an exhaustive chain of title documenting the exact change in legal description is not necessary to correctly recommendation the historical water use that is authorized by the license.

The Wyoming places of use were mapped from scanned images of paper maps from the Wyoming State Engineers Office (provided by claimants) and appear to be consistent with the actual fence lines and apparent property lines.

2. Ownership Issues

Apparently due to this problem with the PLS system, there are some potential ownership issues, as follows:

- a. A24-2000B and A24-4006. These were both claimed by entities with the name "Robinson" in the organization name, and Perry Robinson (208 356-5325) was listed in both files as a contact. In fact Perry Robinson is only associated with A24-4006. The land has changed ownership but he has agreed to continue to provide information as needed for the Adjudication review.
- b. Notes in the files suggest that A24-04074B now belongs to Melvin Hoopes, owner of adjacent claim A24-10015. Visiting with Mrs. V. Haderlie at a home on the place of use, and inspection of the fences, roads, and claims maps, suggest that this is incorrect and the land belongs to Haderlies. The claim adjoining on the other side, A24-04074A, also is in the name of a Haderlie. I have requested a current plat map and ownership list from the Caribou County Assessor.
- c. There apparently is or has been an ownership dispute regarding some of the Wolfley lands. This does not appear to affect the irrigated portion of the lands proposed to be recommended under A24-10029.

3. Nature of Beneficial Use

Claims A24-10676, A24-10677 and A24-10678 contain wording to the effect that these semi-arid lands need irrigation to be productive and therefore the existence of a patent indicates that irrigation must have been present. Some of the lands in Tincup were granted under the Homestead

Act and some under the Desert Entry Act. I think irrigation may have been required under the Desert Entry Act but I don't think it was under the Homestead Act. The attached average precipitation map suggests that at Freedom, annual precipitation is in the 14 inch to 22 inch range. The upper end of that range begins to approach the range where dry farming can be successful. It appears that precipitation increases quite rapidly with elevation as the valley floor rises towards the west. Dry farming is being practiced just up-slope of A24-10015, for instance, but I saw no dry farming along the state line near A24-02018 and other claims. This argument (that the patent establishes priority, because irrigation is necessary for agricultural production) may only apply to the eastern-most claims, if at all.

Claims A24-10031, A24-10668, A24-10676, A24-10677 and A24-10678 appear to be under typical "full irrigation" with sprinklers. This may also be true of A24-02018. A24-02007A and A24-02007B appear to be under active irrigation by gravity. These are the eastern-most claims at the lowest elevation, near the state line. I did not make a detailed investigation, but it appears that the adjacent lands in Wyoming are irrigated if they are in production.

For the other claims, higher in elevation and west of those listed above, the irrigation that takes place presently appears to be confined to dry years or to the first year of establishing an alfalfa stand. For these claims I believe the evidence supports intermittent irrigation, with all of the lands being irrigated in at least some years, but seldom would the whole farm have been irrigated in a given season. In some cases a permissible place of use with a smaller limit of irrigated acres in any one year would be most likely to correctly describe the actual irrigation practice.

4. Overlap of Wyoming Water Rights.

Claim A24-10668 appears to be based on Wyoming "Certificates of Diversion of Water" from the Salt River, with part of the place of use in Idaho. Figure 1 illustrates other lands with Wyoming water rights, most of which appear to be under active irrigation.

5. Unclaimed historical water use.

Some lands in the North of section 9 and the south of Section 4 were historically irrigated by an owner named Carl Robinson, according to some claimants. They appear not to be irrigated now and I have no claim for

these lands.

6. Priority Administration.

While the claims and licenses have different priority dates, it appears that there has been no application of priorities as between Tincup water users. One user said he had heard that "Haderlie had the first right on the creek" but none described operation of priority cuts in allocation of water. It appears that either there is always enough Tincup Creek water for local demand or that an informal rotation system operates in times of scarcity.

In Basin 31 an agreement signed by all the users out of Mud Lake and filed at the county courthouse was incorporated in the partial decrees by reference. This was done by using a special condition attached to certain water rights (see 31-6 for an example). With the viewpoint that one purpose of the Adjudication is to correctly describe actual administrative practices that have been in place for long periods of time, I would propose doing something similar for the Tincup Creek (and tributaries) recommendations, if the users were to come forward with a unanimously-adopted agreement stating that in times of shortage, Tincup water is allocated among local users by rotation, regardless of nominal priority date.

Re: Split

Today I received a plat map from the Caribou County Assessor, included in the file with copies of letters mailed to claimants. This is scanned and geo-referenced as "Haderlie_Hoopes_Splits.jpg" in folder "GeoreferencedImages" of my September 2005 data CD.

Based on the property lines on the scanned plat map, I have constructed shapefile "Haderlie_Hoopes_Splits.shp" in the "Supporting_Data" folder of the CD. I have also intersected this shape with the proposed places of use for A24-04074B in the "Final_POU_Shapefiles" folder. The resulting shapefiles (one for each owner) are in the "Supporting_Data" folder.

Claim A24-10015 and A24-04074A are not split by this plat map, though A24-004074A needs a change of ownership. Notes in file A24-04074B suggest it belongs to Melvin Hoopes but the plat map shows Hoopes only owns A24-10015.

Not all the owners shown on the plat map have lands that intersect the proposed place of use polygons. I have not sent letters to these individuals.

recorded in Book 1 of Water Loca-
tions, at page 120, records of
Caribou County, State of Idaho

To All Concerned notice is hereby given: That Jacob Schiess of Freedom Idaho hereby claims the use of the waters of Tincup Creek and what is called Schiess Creek to the extent of three (3) cubic feet per second. It is intended to divert said water at or near a point where a copy of this notice has been posted as described in the following manner: Commencing at the N.W.1/4 of the N.W.1/4 of Sec. 8, Tp. 5 S. R. 46 E.B.M.; Thence running southeast through N.E.1/4 of N.W.1/4 and S.W.1/4 of N.E. 1/4 of Sec. 8, Tp. 5, S.R. 46 E.B.M. Thence due east 1/4 mile. It is intended to use said water for agricultural purposes. The place of intended use is on his homestead. It is intended to divert said water by means of a ditch 4 feet wide and 3 feet deep. The general course of the ditch is southeast & east and the length is 3/4 mile. The ditch has been completed and the water used for the past 8 years on the following described land: The S.E.1/4 of N.W.1/4 and S.1/2 of N.E.1/4 and the N.E.1/4 of S.E. 1/4 of Sec. 8, Tp. 5, S.R. 46 E.B.M.

Witness my hand at Freedom, Bannock County, Idaho, this 30th day of September 1901.

Jacob Schiess, Claimant

ACKNOWLEDGED: In the State of Idaho, County of Bannock, Sept. 30, 1901, by Jacob Schiess, claimant, before C. H. Haderlie, Justice of the Peace.

License of Water Right No. 24-7010 Priority October 3, 1972 Amount 0.03 cfs

THIS IS TO CERTIFY, that CLYDE W. STOCK
of Freedom, Wyoming, has complied with the terms and conditions of Permit
No. 24-7010 issued pursuant to Application for Permit dated October 3, 1972,
and has submitted proof to the Department of Water Resources on October 22, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.03 cfs of water from a spring,
tributary to Schiess Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	<u>from January 1 to December 31</u>	<u>at 0.03 cfs and</u>	<u>1.2 acre feet</u>
	<u>from to</u>	<u>at cfs and</u>	
	<u>from to</u>	<u>at cfs and</u>	

(both dates inclusive)

Subject, however, to the condition that no more than 0.03 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.2 acre feet per year, said waters to be diverted within the SW 1/4 Sec. 8, Twp. 5S,
Rge. 46E, B.M. in the County of Caribou

RE: Claim No. 24-4077

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

RONALD D. CARLSON
