To:
Barbara Payne
State of Idaho
Department of Water Resources
15 West Center Street
Soda Spring, Idaho 83276

Dear Ms. Payne,

Thank you for your letter of 28 October 2004 in regards to the water rights of my land in Caribou County Idaho, which is (legally) described as follows:

Township 5 South, Range 46 East of The Boise Meridian:

SECTION 7: NE1/4 SE1/4

SECTION 8: S1/2 N1/2, SW1/4, NE1/4SE1/4, W1/2SE1/4

SECTION 9: That portion of the NW1/4 SW1/4 Lying North of the Soda Springs-Freedom Highway. Also, that part of the SW1/4NW1/4 Lying West of the center line of Tin Cup Creek, as said creek is presently located

The land and appurtenances, described above are covered by Land Patent -- Land Patent numbers: 1042977 and #716832. The "Certificate of Land Title and the Quitclaim Deed" is recorded in Caribou County with record numbers 171187 and 171186.

There is also a "Judicial Notice" recorded in Caribou County, record number 171865.

The water associated with the above described land would be included as one of the Appurtenances associated with the land.

By law, the water associated with the above land cannot be taken away from me, as declared in the Declaration of Taking Act, and land patent case law.

I have tried to protect the water rights associated with my land by sending in the "Evidence as Required" to the Idaho Department of Water Resources several times in the past.

I feel the Land Patents will protect the land and the appurtenances, and the water rights as one of the appurtenances.

If I do not get a response from you within 20 working days I will determine that the state has no higher title over my dominion, including my water rights that I hold, and that the Land Patent will protect my water rights.

Sincerely,

Clyde Wallace Stock
