To whom it may concern:

- (1) Enclosed is a check for \$408.78 representing payment for our participation in the recent water dispute issues of the "Burns Group" water users of Carmen (Creek) Idaho.
- (2) As per my conversation with your office this date (Dec 22, 2008) we will NOT require any further legal Services from your office and we are withdrawing any and all past or future associations with the "Burns Group" water users. We find your legal fees incredibly excessive and your results predictably worthless.
