Subject: Water Right License 86-10601
Cletus E. Morken

Your letter and enclosures regarding above subject has been delivered to me as Cletus E. Morken, my Mother, passed away in 2001, and I purchased the ground shown on your map from her estate that year.

Her house was sold in 2002 to Kerry Douge. The map marked "your house" is a fresh water pond built by the CCC's in the 1930's, which was extended by me into a water fowl pond in 2002. The house built by my parents shows on the upper left marked by me which has a well about 50' from the house- and the "point of diversion" is in cropland.
