Boise, ID 83707-9815

Dear Sir:

Regarding Preliminary Recommendation of Water Rights Acquired Under State Law- Right: Number 75-2083. There are several errors regarding this right. I contacted the Adjudication Hotline-phone # 1-800-451-4129 on December 1st and spoke with a woman by the name of Denny. She gave me the phone number of Mr. Ken Knoblock in Coeur d' Alene, and I made a phone call to him and arranged an appointment for Monday the 11th of December to go over the errors on this document and to show him the original paper work we had filled out in Idaho Falls in 1990. I also told him that I had deeded this property to my son Jordan J. Stover a number of years ago, and that I had presented this information to Mr. Bob Foster in Salmon this last summer. Mr. Foster had made a copy of the information presented, and at that time made out an envelope for mailing to the Boise office. I spoke with Mr. Foster by phone yesterday and he said he remembered our meeting and indeed the transfer of ownership papers had been sent on to Boise.

Although I have a meeting arranged with Mr. Knoblock for December 11th in Coeur d'Alene your paperwork indicates that the Error Notification must be mailed by December 8th, 2006. Therefore I am filling out a copy with the errors so noted and will also present this to Mr. Knoblock along with copies of the original paperwork and another copy of the change in ownership form, which is sending to my son to fill out.

Yours truly,

Mary J. Stover
