

AFFIDAVIT

State of IDAHO)
 ss.
County of Madison)

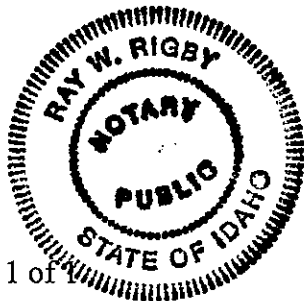

RE: SRBA Water Right Claim 22-13463

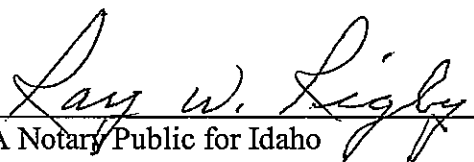

Weldon Neff, being first duly sworn, deposes and says:

1. Your affiant resides at 1463 South 4000 West, Rexburg, ID 83440, and is the owner of the above numbered water right, and makes this affidavit on his own behalf.
2. On April 27, 2006, a letter from Kristin Moore, GIS Specialist in the Adjudication Department, in behalf of the Idaho Department of Water Resources, asked for evidence of Priority (April 1, 1971) for said SRBA Water Right Claim 22-12463.
3. That on or about April 1, 1971, your affiant engaged James C. Reed, who was then an employee of the United States of America, Department of Agriculture, Soil Conservation Service, to help design and process an irrigation-drainage system, which system had as its purpose a means of draining surplus sub-waters from nearby lands through a channel, which ultimately emptied into the North Burton Drain a tributary to the North Fork of the Snake River in Madison County, Idaho, and provided available water for your affiant to use for stock watering and irrigation, by pumping the same from said channel for irrigation purposes and for providing for stock watering from the surface streams.
4. Once the plans were approved, your affiant had the channel dug by LeGrand Kirkham, using a dragline, and water was made available and placed to beneficial use by your affiant for stockwatering and irrigation on and after April 1, 1971, and the same is still being used on the same places of use and for the same purposes, in the amounts set forth in said claim, and has never been lost for non-use thereof.

Weldon Neff
