July 28, 2006

To Whom It May Concern:

Dean Robinson has paid \$10.00 per month since January 2, 1996 to keep from retiring the existing 6 spans of three-phase 7200 volt distribution line for a pump service located in Freedom, Caribou County, Idaho (Section 10, T5S, R46E). The line is further known as Lower Valley Energy's FB51A-1 tap.

Sincerely,

Angie Jennings
Director of Customer Service
