email from Nick, the LDS Church used the
defense of forfeiture that in growing alfalfa
it didn't require water.

Talk with claimant on crop history &
9/25/06 History of the ranch since 1904.
Crop has been alfalfa & barley. R

Would take it out of alfalfa to barley for
4-5 years then back to alfalfa 5-7 years.

Barley requires enough water to keep it
going. Depends on water, rain.

Dean's cell 801-360-3521

9/25/06 Dean met with me and submitted
additional documents.

Notes

6/26/06 Dean Robinson called. I referred him to Nick Spencer. To discuss assumption of his right.

- Sent an address/ownership change to Robinson CC

6/26/06 Nick sent me an email to say that Dean will probably be contacting Randy Budge or Kent Foster on assuming his right. No comment on letter.

Letter NOT sent yet!

6/27/06 Received some suggestions from Nick on letter to Dean Robinson. Made changes and sent letter. CB.

7/12/06 Rec'd ownership changed. CB.

8/1/06 Rec'd files from F.F. via Roger Warner. CB.

8/31/06 Conducted field exam to see new system installed by Robinson Family + Rain for Rent out of Idaho falls. CB.

POD. SW NWNW sec 10, T5S R46E

Dean Robinson called to see if he needs to send photo's of the new system. 9/25/06 apt to complete NOES,

Notes

6/1/06. 11:30AM Mr. Robinson called and talked with Sonja on springs that have been developed for stock, domestic. To get the correct legal descriptions for the POP'S + POU'S.

He asked me if they can get "credit" for irrigating the ground in 2005, with the potential for a new system in 2006.

Photo was taken 10-1-2005 according to the date stamp of the photo. Resumption priority 10-1-05
Sent Nick an email to ask about the resumption date, advanced priority!

6/8/06 email response from Nick Spencer. 'cc Eric, Ray ^{William}
"To resume the use the appropriator actually has to be diverting the water out on the ground and actually irrigating with it for purpose of growing something. If he has done this, and put enough water on the land to noticeably increase the growth of the crop on the land, then he has resumed the use."
If he hasn't done this but staged a pump then he has not resumed use of the water. CB

6/19/06 Mr. Robinson came in and filed domestic claims, Cameron is still working on his system, ^{the mother man} all well

6/23/06 Sent Mr. Robinson a letter that his claim is being disallowed and that he has not proven resumption on the ground. CB

6/23/06 emailed Nick a copy of letter. Nick was out today he will comment Monday.

1-801-360-7521

5/24/06 Dean Robinson called and said he's in Freedom meeting with Cameron Williams NRCS and he's going to design a system for Mr. Robinson. There is no cost share money available because he (Robinson) hasn't irrigated the place in the last 3 years. Dean also wanted to know if I saw any close to a letter to him about what to do. I've explained.

5/26/06 Cameron Williams, NRCS, 547-4396 X112, said he is working with Mr. Robinson on a system but hasn't put anything on paper yet. Cameron wanted to know if Mr. Robinson was at risk of losing his W/R? I said yes, because everything I have is that he hasn't irrigated since 1983.

5/30/06 Recommending claim to be disallowed. At this time Mr. Robinson (also, and since 1983 Mr. Robinson hasn't had a system to beneficially use his water. He's planning to install a system so if he does we could possibly recommend the right with an advance priority date.

Dry farmed

that he falls within the abandonment/
forfeiture statute and has no system
to show that he intends to resume use
He explained to him on 10th of May
during our meeting he needs a system
if he's going to resume using the water.
His explanation to me on the 10th was
that he was never told that he has to
use the water in order to keep his
right.

5/10/06 11am apt. w/Dean Robinson.

- Irrigated in 1977.

- No irrigation after 1983

TOPO/Quad 2100.

During meeting with Dean Robinson & Brother-in-law Jim, we could not locate the ditches from the 1976 Orthoquad.

5/23/06 I went into the field to check out a claim that someone was in the stream channel ~~to~~ Tin Cup Crk. It turned out to be incorrect but I was able to talk with Fred Brog. Fred farms many of the places in the Valley. He has never farmed the Dean Robinson's place. Last fall he was asked to bring in pump (portable-diesel) over and park it off Tin Cup Crk.

12/21/05 Scott Wolfrey called to say that the Robinson Family haven't irrigated for years. They borrowed hand lines & a pump and took the pictures. Per conversation between Scott and Pauline Bassett. CB

12-28-05 None irrigated 2003-2005. May irrigate 1 out of 5 per Chadger/Kal Keener is the one that reports crops. BP

12/30/05 T2941 only lists about 11/4 acres irrigated under each QQ but the total number of acres is 151.5. The shape under the transfer appears to be same. I added the Coy Condition to cover the acres, however I don't think any change has recently occurred on the ground. CB

Transfer approved Jan, 1984.

2/23/06 phone conversation with J. Scott Wolfrey, the photos that Sean sent in were staged.

Subject: Water Right - Robinson Family Ranch, Freedom, Idaho

Dear Mr. Contor:

I have included the following documentation which will review the history of the Water Right for our ranch on Tin Cup Junction Road in Freedom, Idaho.

1. This document shows a water license #551 was granted to John Robinson, my grandfather on April, 22, 1904, for seven and eight-tenths cubic feet per second from Tin Cup Creek, County of Bannock, State of Idaho, for irrigation and domestic purposes.
2. Three colored photographs taken in June 1958 showing how the water was brought onto the ranch by an irrigation ditch and emptied into a series of sloughs producing sub-irrigation, as well as, providing water for domestic animals.
3. This document shows the Right of Way Easement and installation of 3 phase electric line (above ground) through the L.H. Haderlie property to the South property line of the R. F. Robinson ranch to be used for pumping water from Tin Cup onto our ranch. It was signed by L.H. Haderlie on the 7th of December, 1966. His son, Byron Haderlie, who purchased the farm from his father, L.H. Haderlie, signed the Right of Way Easement again on 18th of January, 1967.
4. This document shows approval of our application to transfer the Water Right from a location on the Earl Wolfley property to the location of the three phase electric power line.
5. This document shows that the Water Right was adjudicated by District Court of the Fifth Judicial District of the State of Idaho, in the County of Twin Falls on Aug. 23, 1989. This document gives the ranch the right to use water from the Snake River Basin Water System at the rate of 3.03 cubic feet per second.
6. This document shows an estimate from Rain For Rent in Idaho Falls, Idaho, for the instillation of sprinkling system for the ranch.

After having the Water Right for the ranch since 1904, which represents 101 years, we feel we have a legal right to keep it. If there is additional information that you may need, please let me know. My address and other contact information are listed below.
