**C. NAME AND ADDRESS OF PERSON(S) WHO FILED OBJECTION TO WHICH YOU
ARE RESPONDING:**

D. I am responding to the objection(s) to the following elements:

1. ☐ Name and Address
2. ☒ Source: The source of this water right is the Snake River. The “condition” requested is not factually correct, legal, or necessary for the administration of this water right.
3. ☒ Quantity: The quantity is defined by prior decree. The “conditions” requested are not factually correct, legal, or necessary for the administration of this water right.
4. ☐ Priority Date:
5. ☐ Point(s) of Diversion
6. ☐ Instream Flow Description
7. ☐ Purpose(s) of Use
8. ☒ Period of Year: The season of use is properly defined as the irrigation season for the Basin where the water right is used (3/15 to 11/15). The requested change is not factually correct nor does it reflect the irrigation season already decreed by the Court for other water rights used in this Basin.
9. ☒ Place of Use: The place of use element should be decreed as recommended.
10. ☒ Other Conditions: The requested “condition” violates the Court’s “connected source” general provision decreed in the Basin-Wide Issue 5. Moreover, the water right is administered together with all hydraulically connected water rights, including ground water rights, in the Snake River Basin. The requested “conditions” are not factually or legally correct. See Responses above.
11. Recommendation:
 - ☐ This water right should not exist
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

D. REASONS SUPPORTING RESPONSE.

The water right should be decreed as previously decreed and recommended. The reference to the limited availability of this water right based upon Water District 1 records is false. There is no basis in fact or law to limit the source or quantity of this water right as suggested in the objection.
