9/28/06 Gugg spoke with me at the basin 24 public meeting about his domestic right on 24-7009. He had a partial decree on 24-7009A but wondered about his home.

10/2/06 I found that Gugg's partial decree on 24-7009B was issued in 4/1999 so I sent him a copy of the W/P printout and a copy from the SRBA Court's website CB

RE:

POU Boundary. - Amended Claims, deed.

Conversation:

Per the warranty deed we corrected the
ownership layer for the B portion of these rights.
In the SWNW of section 10, it should be a rectangle
of approximately 20 acres, (S 1/2) and the W 1/2 SENW
of section 10 is also approximately 20 acres.
Gregg Maney farms the NW corner of the SENW
of section although it's owned by Zane. The SE
corner of the SENE of section 9 is farmed by Zane

Action Required:

The PPU boundaries for both A & B needs to adjusted
in the SWNW of section 10 to stay within the
boundary. The change in the over all total number
of acres under both A & B that division rate was
not adjusted.

although it's owned by Gregg. They plan to do a deed swap of the land. But for now we will note within each file of the difference.

Also the adjustment of the POU shape for both rights is so small it's not going to adjust the diversion rate. They would lose more than this in conveyance loss. CB

I propose leaving the licensed diversion rate intact in order to preserve the ability to resume the original licensed practice of gravity irrigation, which requires more diversion rate than sprinklers. This requires individual acreage limits that add up to more than the PPU acreage, so a combined acreage limit may also be appropriate.
