INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

[x] I have read *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996).

My name is _____

My address is _____

My phone number is: Work _____ Home _____

I am an attorney representing Gem Irrigation District

My name is Albert P. Barker

My address is 1010 W. Jefferson, Suite 102, Boise, ID 83701

My phone number is 208-336-0700

MOTION TO FILE A LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

☐ I did not file a Notice of claim to the use of water in the SRBA because:

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

☐ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

I have attached:

- ☐ A fully completed Notice of Claim (available from IDWR).
- ☐ A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. § 42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have also enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$_____.
- ☐ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$_____.

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on _____
(Insert Date and Time)

at the SRBA courthouse, 253 Third Avenue North, Twin Falls, Idaho.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A Motion to File an Amended Notice of Claim may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

[x] I must amend my Notice of Claim to the use of water in the SRBA because:

A point of diversion was inadvertently omitted from the original claim. An objection to omission of this point of diversion was filed, but the Department requires an amended notice of claim to rectify this omission.

[x] I am providing legal and factual documentation to support my amended Notice of Claim. You must describe these documents and attach a readable copy.

Objection filed by claimant dated 12-5-2007 is attached hereto as Exhibit A, including a letter dated 12-16-1992 from David Tuthill to claimant's representatives, recommending this amendment, which describes the factual basis for this amendment.

I have attached:

- ☒ An Amended Notice of Claim (available from IDWR).
- ☐ Payment of the following additional fees required by IDWR:

Mr. Ron Geertson, et al
Rt. 1, Box 1333

RE: Reinstatement of a Point of Diversion by Gem Irrigation District

Dear Mr. Geertson:

I am in receipt of a letter signed by yourself and six other individuals in which you identified some concerns relative to Gem Irrigation District's actions to renew a point of diversion northwest of Homedale. I will respond to your questions in the order they were addressed in your letter.

1. Does Gem Irrigation District need authorization from the IDWR to move 25-30 cfs of the water right to Homedale?

Licensed water right No. 02-02014 identifies two points of diversion, one near Marsing (NENW Sec. 14, T 2 N, R 4 W) and the other near Homedale (NWSE Sec. 32, T 4 N, R 5 W), with a rate of diversion of 306 cfs, and with no restriction regarding the rate of flow to be diverted from each location. Licensed water right No. 02-02276 identifies only the Marsing point of diversion, for an additional 50 cfs. The total water right from the Snake River in the name of Gem Irrigation District is 356 cfs.

Consistent with the description in your letter, it is my understanding that in the 1930's or 1940's the diversion of water from the Snake River by Gem Irrigation District was consolidated at the diversion site near Marsing. It is my understanding that the site near Homedale has been unused since then.

This summer the manager of Gem Irrigation District, Mr. Clyde Hutton, visited our offices to determine what action, if any, would be needed to reconstitute the point of diversion near Homedale. We researched the water rights at the sites, discovered the recorded point of diversion at Homedale, and determined that if (1) the total rate of diversion of 356 cfs has been used periodically since the licenses were issued (so there has been no forfeiture of any portion of the water right), and (2) the total rate of diversion after the Homedale pumps are replaced does not exceed 356 cfs, then the only filing required by Gem Irrigation District is to amend the adjudication claim to show both points of diversion. This action can be completed at no charge to the district, and it does not have

to be accomplished until the Department is preparing the Director's Report for the Snake River mainstem.

Mr. Hutton felt that that the proposed reinstatement of the Homedale pumping plant would comply with these conditions because the output of the pumps has diminished over recent years. The pumping plant output was measured by District personnel to produce 371.49 cfs on May 27, 1964 according to the field report in the Department's file for License No. 02-02276. In comparison, according to information provided by the U.S. Geological Survey the maximum daily output of the pumping plant at Marsing was 319 cfs for water year 1992, and 321 cfs for water year 1991 (see discharge values enclosed). This is likely due in part to pump wear, but is also due in part to the lowered stage of the Snake River due to drought-reduced flows.

After receiving your letter, Mr. Geertson, as a double check I contacted Department chief counsel Mr. Phillip Rassier, who confirmed that he is not aware of any provision whereby the use of a point of diversion can be forfeited in conjunction with a water right for which the full rate of flow is appropriated at one or more of the remaining points of diversion.

2. Is the pumping plant at Marsing producing less than 356 cfs so that water is available within the water right to be transferred?

See the response above.

3. If the full amount of the 356 cfs has not been used, is that water still available for appropriation after over 50 years of non-use?

Based on the measurement of 371.49 cfs on May 27, 1964 and on the data reported by the USGS, it appears that 356 cfs could possibly have been used within the past 5 years. If this is the case, the addition of another 25-30 cfs at Homedale would be acceptable if the total diversion does not exceed 356 cfs.

4. What liabilities are the Directors creating for themselves and Gem Irrigation District by proceeding with a new diversion of water from the Snake River without authorization from the IDWR and other agencies?

Page 3
Ron Geertson, et al
December 16, 1992

I view the proposed action by Gam Irrigation District as being similar to a wateruser replacing a worn-out pump. I do not know of any approvals required by the District to complete the proposed action, assuming that the rights-of-way are still in place.

Mr. Geertson, after you and your associates review this response, please feel free to contact me regarding any aspect of this letter. In order to fully explore this subject I am sending copies of this letter to Mr. Hutton, and to Mr. Luke of our State Office.

Sincerely,

David R. Tuthill, Jr., P.E.
