DEPARTMENT OF
WATER RESOURCES

Attn: Brigett Bilyeu

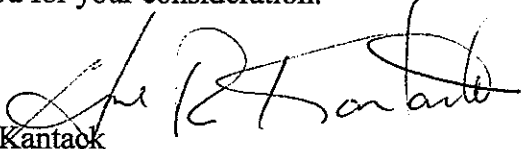

Dear Ms. Bilyeu:

I have to protest the recent findings and conclusions of the court in regards water right 21-7362, case No. 39576.

For some reason, I did not receive notification of the hearing date and hence was not present to state my case. Secondly, reference to right No. 21-110A should have little bearing since this area was put under water when the lake level was raised.

Staley's springs has traditionally been watered as per the documentation I have sent. It is unfortunate that the irrigation use was not included in the original petition and subsequent decree. We would estimate 2-3 acres of landscaping to preserve. Natural rainfall is fair in most years with some dry spells. Usage is not heavy.

Thank you for your consideration.
