DEPARTMENT OF
WATER RESOURCES

Date: 02/09/09
From: Julie Murphy, SRBA Deputy Clerk
To: IDWR
Subject: Fees for filings of *Amended Notice of Claim*

When the assistants to the special masters process orders granting motions to amend claims, they often forget to let me know about it. Time passes, the note I gave them to notify me when an order is processed gets buried in the file under successive filings and understandably they forget... and I don't see their orders prior to mailing. Consequently, the checks for fees I'm holding do not get forwarded to you with the orders. I, also, have been very negligent for not following up on any sort of a regular basis. In the future, I am determined to implement an effective way of resolving this problem. In the meantime, I am forwarding checks to you for amended claim fees, together with documentation showing the water right numbers, (listed below) claimant names and dates orders were filed.

I apologize for the delay and any extra work or inconvenience this may cause. If you have any questions or simply feel the urge to rail on me for my negligence, feel free to call me☺!! Thanks.
