Indemnification shall include, but is not limited to, the value of resources damaged or destroyed; the costs of restoration, cleanup, or other mitigation; fire suppression or other types of abatement costs; third party claims and judgments; and all administrative, interest, and other legal costs. This paragraph shall survive the termination or revocation of this authorization, regardless of cause.

C. The holder has an affirmative duty to protect from damage the land, property, and interests of the United States.

D. In the event of any breach of the conditions of this authorization by the holder, the authorized officer may, on reasonable notice, cure the breach for the account at the expense of the holder. If the Forest Service at any time pays any sum of money or does any act which will require payment of money, or incurs any expense, including reasonable attorney's fees, in instituting, prosecuting, and/or defending any action or proceeding to enforce the United States rights hereunder, the sum or sums so paid by the United States, with all interests, costs and damages shall, at the election of the Forest Service, be deemed to be additional fees hereunder and shall be due from the holder to the Forest Service on the first day of the month following such election.

E. With respect to roads, the holder shall be proportionally liable for damages to all roads and trails of the United States open to public use caused by the holder's use to the same extent as provided above, except that liability shall not include reasonable and ordinary wear and tear.

F. The Forest Service has no duty to inspect the permit area or to warn of hazards and, if the Forest Service does inspect the permit area, it shall incur no additional duty nor liability for identified or non-identified hazards. This covenant may be enforced by the United States in a court of competent jurisdiction.

V. TERMINATION, REVOCATION, AND SUSPENSION

A. General. For purposes of this permit, "termination", "revocation", and "suspension" refer to the cessation of uses and privileges under the permit.

"Termination" refers to the cessation of the permit under its own terms without the necessity for any decision or action by the authorized officer. Termination occurs automatically when, by the terms of the permit, a fixed or agreed upon condition, event, or time occurs. For example, the permit terminates at expiration. Terminations are not appealable.

"Revocation" refers to an action by the authorized officer to end the permit because of noncompliance with any of the prescribed terms, or for reasons in the public interest. Revocations are appealable.

"Suspension" refers to a revocation which is temporary and the privileges may be restored upon the occurrence of prescribed actions or conditions. Suspensions are appealable.

If the fees become delinquent, the Forest Service will:

Liquidate any security or collateral provided by the authorization.

If no security or collateral is provided, the authorization will terminate and the holder will be responsible for delinquent fees as well as any other costs of restoring the site to its original condition including hazardous waste cleanup.

Upon termination or revocation of the authorization, delinquent fees and other charges associated with the authorization will be subject to all rights and remedies afforded the United States pursuant to 31 U.S.C. 3711 *et seq.* Delinquencies may be subject to any or all of the following conditions:

Administrative offset of payments due the holder from the Forest Service.

Delinquencies in excess of 60 days shall be referred to United States Department of Treasury for appropriate collection action as provided by 31 U.S.C. 3711 (g), (1).

The Secretary of the Treasury may offset an amount due the debtor for any delinquency as provided by 31 U.S.C. 3720, *et seq.*

VII. OTHER PROVISIONS

A. Members of Congress. No Member of or Delegate to Congress or Resident Commissioner shall benefit from this permit either directly or indirectly, except when the authorized use provides a general benefit to a corporation.

B. Appeals and Remedies. Any discretionary decisions or determinations by the authorized officer are subject to the appeal regulations at 36 CFR 251, Subpart C, or revisions thereto.

C. Superior Clauses. In the event of any conflict between any of the preceding printed clauses or any provision thereof and any of the following clauses or any provision thereof, the preceding printed clauses shall control.

D. Drinking Water Systems (B38).

1. The holder, as the water supplier and owner or operator of the drinking water system, is responsible for compliance with all applicable Federal, State, and local drinking water laws and regulations for the operation and maintenance of a public water system. This includes, but is not limited to, developing, operating, and maintaining the system, and conducting drinking water testing and taking the appropriate corrective and follow-up actions in accordance with Federal, State, and any other applicable requirements. For the purposes of this authorization, public water systems are defined in the Safe Drinking Water Act, as amended (42 U.S.C. 300f *et seq.*), and in the National Primary Drinking Water Regulations, Title 40, Code of Federal Regulations, part 141 (40 CFR part 141), or by State regulations if more stringent.

2. When the permit holder operates Federally owned systems (for example, when the permit is authorized under the Granger-Thye Act), the holder shall meet additional requirements for public and nonpublic water systems consistent with FSM 7420. Requirements under FSM 7420 applicable to the permit holder are set forth in an appendix to the permit entitled "Operation of Federally Owned Drinking Water Systems" (Form FS-2700-4h-Appendix F).

3. For Federally owned systems, the holder shall notify and consult with the Forest Service within 24 hours or on the next business day after notification by the laboratory of a sample that tests positive for microbiological contamination. The holder shall notify and consult with the Forest Service within 48 hours of notification of a maximum contaminant level violation or an acute violation.

4. The holder shall retain all records as required by applicable laws and regulations. The holder agrees to make the records available to the Forest Service and to any other regulatory agency authorized to review Forest Service activities. Copies of microbiological test results for Federally owned water systems shall be forwarded monthly to the Forest Service by the 15th of the month following the sampling date. Copies of other required records for Federally owned systems shall be forwarded annually to the Forest Service within 15 days of the end of the operating season for seasonal sites or within 15 days of the end of the calendar

K. Superseded Authorization (X18). This authorization supersedes a special-use authorization designated: 5395-01.

L. Improvement Relocation (X33). This authorization is granted with the express understanding that should future location of United States Government-owned improvements or road rights-of-way require the relocation of the holder's improvements, such relocation will be done by, and at the expense of, the holder within a reasonable time as specified by the authorized officer.

M. Performance by Other Than Holder (X69). The acquisition or assumption by another party under an agreement with the holder of any right or obligation of the holder under this authorization shall be ineffective as to the Forest Service unless and until approved by the authorized Forest officer. A subsequent acquisition or assumption shall not:

1. Operate to relieve the holder of the responsibilities or liabilities they have assumed hereunder, or
2. Be given unless such other party (1) is acceptable to the Forest Service as a holder, and assumes in writing all of the obligations to the Forest Service under the terms of this authorization as to the incomplete portion thereof, or (2) acquires the rights in trust as security and subject to such conditions as may be necessary for the protection of the public interests.

N. Water Rights (X74). This authorization does not convey any legal interest in water rights as defined by applicable State law.

O. Disputes (X96). Appeal of any provisions of this authorization or any requirements thereof shall be subject to the appeal regulations at 36 CFR 251, Subpart C, or revisions thereto.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0082.

This information is needed by the Forest Service to evaluate requests to use National Forest System lands and manage those lands to protect natural resources, administer the use, and ensure public health and safety. This information is required to obtain or retain a benefit. The authority for that requirement is provided by the Organic Act of 1897 and the Federal Land Policy and Management Act of 1976, which authorize the Secretary of Agriculture to promulgate rules and regulations for authorizing and managing National Forest System lands. These statutes, along with the Term Permit Act, National Forest Ski Area Permit Act, Granger-Thye Act, Mineral Leasing Act, Alaska Term Permit Act, Act of September 3, 1954, Wilderness Act, National Forest Roads and Trails Act, Act of November 16, 1973, Archaeological Resources Protection Act, and Alaska National Interest Lands Conservation Act, authorize the Secretary of Agriculture to issue authorizations for the use and occupancy of National Forest System lands. The Secretary of Agriculture's regulations at 36 CFR Part 251, Subpart B, establish procedures for issuing those authorizations.

The Privacy Act of 1974 (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552) govern the confidentiality to be provided for information received by the Forest Service Public reporting burden for collection of information, if requested, is estimated to average 1 hour per response for annual financial information; average 1 hour per response to prepare or update operation and/or maintenance plan; average 1 hour per response for inspection reports; and an average of 1 hour for each request that may include such things as reports, logs, facility and user information, sublease information, and other similar miscellaneous information requests. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

This permit is accepted subject to the conditions set out above.

CLAIM 24-2039

SUBJECT: POD ON FOREST SERVICE GROUND

RESPONSE DATE: MAY 12, 2006

Dear Mr. Carlisle,

I received the copy of your warranty deed and the TOPO map with the point of diversion (POD) and the place of use (POU) indicated. Looking closely at the map you can see that the POD is located on Forest Service ground. Do you have permission from the Forest Service for the development of the spring on their ground? I need a copy of the agreement with the Forest Service before I can process your claim.

I've also included two layouts with the POU blown up in the smaller view. Please locate your house and the 1-acre of ground that is irrigated by the spring on one of the layouts and return it to me with a copy of your agreement with the Forest Service. The location that you put on your TOPO map doesn't match the claimed POU so we may need to amend the claim to fix the POD and POU legal descriptions.

If you have any questions please feel free to contact me at (208) 547-3993.

Respectfully,

Cindy E. Bird

Notes

12/12/05 Scott Carlisle called about my letter. He gave me his legal description for the property that he owns. It's the E $\frac{1}{2}$ NE. of Sec. 32, S $\frac{1}{2}$ NW Sec. 33, ALL T7S R46E. as I explained to Scott, he doesn't own the property in the NESE of Sec. 32. So I can't just move this w/r to the NENE of Section 32. Scott is going to get a hold of Mr. Harris, and talk to him about signing a notarized document that this w/r should go with Scott's ground. CB. I explained that I have deadlines to meet, but he can object to the recommendation if the director's report has been filed.

1/19/06 Scott Carlisle - Called and his neighbor won't be back until February. Scott will have him sign a letter that he doesn't have this water right. It should be Scott's. Scott will send me the letter and a map with the house and 1 acre of irrigation CB located on it. by the 10th of February.

Document how the POU was verified:

Licence was for 1 acre of irrigation.
Please see narrative on contacts page. No shapefile made because 1987 photo is indistinct / recent changes make determination of 1987 use uncertain. I propose recommending 7S 46E 32 NW NE as location of POU. I don't know what acreage to propose. "Lack of evidence is not evidence of lack of irrigation." Since this was based on a licence, at least most of the ir is still occurring (in the wrong loc) I think it would be very hard to assert partial forfeiture.

Re: Snake River Basin Adjudication (SRBA)
Claim 24-2039

Subject: EVIDENCE OF OWNERSHIP

RESPONSE DATE: 19 December 2005

Dear Claimant(s):

The Idaho Department of Water Resources initial investigation of the Notice of Claim listed above indicates that there has been a change in the point of diversion and place of use.

Licensed Point of Diversion (POD):

T7S, R46E, Sec. 32, NWSE.

Field Exam location of POD:

T7S, R46E, Sec. 32, SENW.

Licensed Place of Use (POU):

T7S, R46E, Sec. 32 NESE

Field Exam location of POU:

T7S, R46E, Sec. 32, NENE

In order to change the POU you must provide evidence that you owned the licensed POU or that you purchased the water right appurtenant to the licensed POU. Caribou County Assessor's office has advised us that you are not the current owner of the property located in the NESE of Section 32. Therefore without evidence of ownership by you, we cannot change the POU.

The licensed POD and the field exam POD are both located on Forest Service ground. Therefore, the POD cannot be changed without authorization from them.

*E 1/2 NE 1/4 Sec. 32.
S 1/2 NW Sec 33.*

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

This office must receive your response by the above referenced response date. If no response is received, then your claim to water will not be recommended to be decreed. If you have any questions not covered by this letter, please feel free to contact our office 547-3993.

Respectfully,
