Dear Claimant(s),

The Preliminary Director's report on the above reference claim has recommended stock water in the SRBA. An additional remark has been added to your recommendation clarifying the number of stock being watered by the source claimed. This number of stock watered is based on the SRBA claim of **4 horses**. If you have any questions please don't hesitate to give me a call at 547-3993.

Dean,

I don't know if this is related to any of the other problems we have been having or not, but the water uses (irrigation and stockwater) show up in information search, but not in the eCVR. I thought I would run this by you before I write it up as a bug. By the way, if you click on the POU tab in the eCVR your cursor turns into a hour glass. I have not seen anything like this before.

RE: Adjudication Recommendations for Out-of-State Diversions or
Places of Use

For an out-of-state diversion with place of use in Idaho, prepare recommendations for all elements of the water right.

For point of diversion use the location where the conveyance system enters Idaho.
To clarify the point of diversion use this condition:

F15 The point of diversion for this water right is in [state], [PLS, including meridian]. The point of diversion shown above is where the conveyance system enters Idaho.

To clarify the priority date use this condition:

The priority date for this water right must be determined by the state of [____]. The listing of this element is for informational purposes only.

To clarify the quantity use this condition:

The quantity for this water right must be determined by the state of [____]. The listing of this element is for informational purposes only.

Notes:

1. Digitize the POD at the location where the conveyance enters the state. This location is useful for spatial queries. Place the actual POD in the SpatialData layer.
2. As the recommendation for an out-of-state diversion is forwarded to the SRBA Court, the format will be changed in the State Office to conform with previous similar submittals.

For an in-state diversion with the place of use out-of-state, prepare recommendations for all elements except place of use. To clarify the place of use, use this condition:

F16 The place of use for this water right is in [state], and includes [x] acres described as [PLS, including meridian].

CONVERSATION WITH: Ken Christensen

SUBJECT: Warranty deed / ownership change

Ken called and said he had talked with Barbara and he didn't have his warranty deed, and now has his deed. He will send us a copy of the deed.

He also said he got a call from someone about coming out. He hasn't gotten a hold of them because he is leaving tomorrow for the Persian Gulf. He's a merchant marine. He has been state side since the middle of July but chose to call the day before he left.

I explained to him that this is a competing claim for the entire license. With him leaving he may not get his claim recommended because more information is needed. But we will do our best but he needs to make sure and check his mail for correspondence from us because he only has so many days to respond to information.

I asked if anyone is available for a field exam. He said no. It's pretty easy to find but there is no one to meet you out there. He won't be back until winter. I said it's hard to do a field exam in 2' of snow.

Dear Mr. & Mrs. Christensen

3 Sept 05

Idaho Department of Water Resources has asked me to do a field inspection of your water right from Miller Creek. This is so the right can be recommended in the Snake River Basin Adjudication. I will try to call you at 307-883-2811. If I can't reach you, please call me at 208 681 9100.

Thank you,

June 30, 2005

I talked to Cindy about this claim, after Ken called. Ken does not know when the POD was changed. He said it's never changed since he purchased the property in 1997.

Cindy said, Ken needs to find out if the change occurred prior to 1987. If it did, he needs to see if a neighbor or someone can give him a notarized statement stating when it occurred and how they know.

If he can't find out when the change occurred, IDWR will have to recommend it as licensed and he will have to file a transfer later.

Claim 24-2047A

COPY

Subject: Licensed Place of Use

RESPONSE DATE: 8 November 2005

Dear Claimants:

The Department of Water Resources is currently investing water right claims in Basin 24. The basis sited for this claim is License 24-2047. However, this license does not include the place of use indicated in the claim.

In order to make a complete and accurate recommendation of your water right, each element of the water right must be proven. The Department needs convincing evidence of when the water was moved to your claimed place of use.

This office must receive your response by the date shown above. If no response is received, then your claim to water will be disallowed. If you have any questions, please feel free to contact me at the Soda Springs office at 547-3993.

Respectfully,

Cindy E. Bird

Dear Barbara,

I have enclosed the Notice of Change in Water Right Ownership as you instructed in our phone conversation earlier in the day. Hopefully my family will find my deed, title policy or contract of sale and mail you a photocopy in the near future.

I will call you when I return from my overseas trip (early June?) to see if there is anything else I need to do regarding my water rights.

Thanks for your help.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. Subject: OWNERSHIP CHANGE

Response Date: 15 APRIL 2005

Dear Claimant(s):

We have been advised you may be the current owner of the property and water right referenced above. I am enclosing a copy of the Claim Form submitted by Terry and Robert Kingen in 1993. If you are the current owner and are still interested in pursuing a water claim for irrigation and stockwater usage, please complete the enclosed "Notice of Change in Water Right Ownership" and return it to our Soda Springs Office. If you are not the owner but know who the owner is, we would appreciate your assistance in locating the current owner.

In order to make a complete and accurate recommendation of your water right, each element of the water right must be proven. The Department needs information that shows you are a successor to the original water right. This could be established through deeds or other conveyance documents that show you own a portion of the original water right. I am enclosing a copy of our pamphlet "Evidence of Priority" to guide you to sources that may constitute proof of the priority date of your water right.

Please feel free to call me at 547-3993 if you have any questions.

Respectfully,

Barbara Payne
