Case # 39576

63-20931

State of Idaho
District Court
Snake River Basin Adjudication
Attn: Ted Booth

Dear Sir:

I am writing this letter today, because I received a letter saying I was being Disallowed my water rights I have used this water since 1969, and before that my uncle used this water from this Drain Ditch it is composed of water from runs off the farms above me waste. I pay a water Bill each year but I have no way of receiving this water there is no Ditch I own 2 acres at present, all in yard. I water this yard with a small pump, pumping on of the Drain Ditch. my wife and I have been retired since 1992, and have been out of State just a bit I have never seen any papers asking us to refill on this Ditch.

I would like to have this partial Decree Reversed if at all possible, It is the only way I have to water my yard.

4309 HAPPY VALLEY RD.
NAMPA, IDAHO 83401

Hoping you can do something
