Lisa,

Attached is an amended claim with an April 3, 2003 priority date. This is the date shown the well was completed on the well log for Jennifer Scott. I also adjusted the diversion rate to 0.03 cfs (13 gpm) and I added the ¼ of the ¼ information to legal description in Government Lot 3 of Section 9.

You may make any additional changes to the claim by writing on the claim form and initialing the changes. We will need to have a paper copy of the amended claim for our files, so please mail or deliver the claim to our Northern Region office in Coeur d'Alene. Note: you do not need to return the well log; I included it just in case you did not have a copy.

Thank you for responding so quickly.

Carter Fritschle

Thank you for writing. After we submitted our on-line claim we spoke to a gentleman at the Water District and he gave us more particular information with regard to the well on our property, which is the one below (the folks we purchased our home from). Please note that postal address was subsequently changed to 22303 N Derting.

52N 03W 9 21250 N DERTING RD 2003 796646 D0028251 JENNIFER SCOTT

If you would kindly assist us with amending the claim it would be much appreciated. Also, the well produces approximately 12 gpm, so the quantity stated in the claim must have been an error.

Thank you for your help.

Dear Claimants:

Thank you for using Idaho Department of Water Resources' Online Claim Filing application. We have completed the initial processing of your Notice of Claim to a Water Right No. 95-10214. During the processing of your claim, we noticed that you stated the priority date claimed is the "Date of property purchase." While this is an acceptable date to claim, it may not be the date the water was first put to beneficial use on your property.

Listed below are the wells that we have on record as being drilled in Township 52 North, Range 3 West, Section 9. The owner list reflects the ownership of the well that appears on the well log submitted by the well driller. Perhaps one of the names on the owner list represents a previous owner of your property. If so, and if the well was drilled and used earlier than the 3/28/2005 priority date listed on your claim, you may amend your claim to an earlier date at no additional charge.

Twn	Rng	Sec	Well Address	Year Drilled	Permit ID	Tag No.	Owner List
52N	03W	9		1986	752340		MIKE HENDERSON
52N	03W	9		1986	752341		BRAD DERTING

If you decide to amend your claim, you may contact me and I will send you a draft amended claim form for your signatures. Or, you may log in to the account you established to file your claim online, and on your History page click the Preview Claim button. You may then print the claim form and write in any changes by hand. Please initial any changes you make, sign the form and mail or deliver it to the Idaho Department of Water Resources' office shown below:

Idaho Department of Water Resources
7600 North Mineral Drive, Suite 100
Coeur d'Alene, Idaho 83815-7763
(208) 762-2800

And there is one additional item you may wish to review. Your claim lists 20 cubic feet per second (cfs) as the amount of water for domestic purposes. While you may claim any amount of water you want, 20 cfs converts to approximately 9,000 gallons per minute (gpm) which is significantly more than a typical household would require. Most domestic wells for one home are designed to produce 15 to 20 gpm (approximately 0.04 cfs). If you are able to identify one of the wells listed above as the well that is on your property, you may obtain information about that well by using the Well Information Search tool found at the following link:

<http://www.idwr.idaho.gov/water/well/search.htm>

Clicking the "Related Document" button should open an image of the well log in your browser. Frequently, the well driller listed the amount of water test pumped from the well on the well log. While this number may not reflect the actual installed pumping capacity of the well, it is generally somewhat close.

If you have any questions or need assistance, please contact me.

Sincerely,

Carter Fritschle
Section Manager, Adjudication Bureau
