

Idaho Department of Water Resources

MEMORANDUM

File: 74-733F
Date: April 20, 2009
Subject: Change of Ownership

On March 16, 2009, Rockie and LeeAnn Walker submitted a change of ownership for 74-733F. LeeAnn contacted the Eastern office March 27, 2009 with questions about the water right. Mrs. Walker claimed that Rick Sager, water master, informed them that they did not have a current water right that covers the parcel of land that the house was located buy the parcel to the north (2 acres) was covered. The Walker's had some concerns about what they were told.

In further investigation, Ernie Carlsen and I found how 74-733 was originally claimed by using IDWR ArcMap file lemhi.tif. This WR was split several times and then combined once again. We determined that 74-733F was in fact covered the four acres where the Walker's house is but not the additional parcel to the north. When 74-733 was initially split the 2 acre parcel currently owned by the Walker's was never claimed in the SRBA. The reason for not filing is unknown.

I have created a layout to help explain how 74-733 is divided. The Walker's will file a late claim with the SRBA court to claim the 1.4 acres not claimed from the decreed WR 74-733.

Water Right 74-733

This water right Was split several time and some of the deeded acres were never claimed.
