We would like to request that the SRBA court allow us to file a late objection. We just learned that one of our water rights has been disallowed and we have lost half of our water. Apparently part of reason was the water master for the District 45 canal did not understand that we purchased the property for 37-11281 separately from the property connected with water right 37-113P so he did not deliver that right. Each property had .12 CFS. Now we have a total of .12 CFS. We originally had .24 CFS between the two properties.

During the adjudication we were asked if we would like to combine our water rights. We asked if we would lose any of our water rights and we were told that our water rights would remain the same. Maybe the confusion came from the fact that we have two separate properties next to each other with the same amount of water rights.

We would really appreciate the opportunity to meet with you to remedy the situation as soon as possible.

Thank you for you help.
