RE: SRBA Subcase No. 29-497A (Criddle)

Dear Judge Melanson:

This water right was recommended by the Department in the *Director's Report of Late and Miscellaneous Claims for Irrigation and Other Uses* which was filed with the SRBA Court on November 18, 2008. The deadline to file objections ran on January 19, 2009. No objections have been filed to this water right.

Subsequent to the filing the of the Director's Report, the Department discovered a clerical error in its recommendation. Specifically, the tributary of "sinks" was inadvertently left off of the source description of this right. I have attached a revised recommendation with the addition of the tributary which properly describes this water right.

Accordingly, the Department requests that the Court issue its partial decree as accurately described within the attached revised recommendation.

I am sending a copy of this letter to the claimants for this water right, so that they are aware of this issue.

If you should have any questions or comments, please feel free to contact me at (208) 287-4809.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Bromley".
