RE: Snake River Basin Adjudication (SRBA)
Notice of Claim to a Water Right #79-2032, Decrees 61-4065, 61-10093,
79-13593, 79-13594, 79-13595, 79-13596 and Water Rights 79-4430,
79-7131A, 79-7131B, 79-7131C and 79-7131D

Dear Claimants: *modified 79-2032 (claim)*
-M

*cc: W.A.
9-12-06*

The Postal Service advised us your address has changed to the above address.

Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter, **list any other water rights you have**, and return this letter by September 15, 2006. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records. Be sure to list your water right numbers.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the water right records.

Sincerely,
Sally Sherman

RE: Cutler Brothers Skookumchuck Ranch

Dear Ms. Lowe:

I have completed my analysis of the Skookumchuck Ranch water right filings, based on my field examination of those rights last September. I am prepared to recommend the following uses pursuant to those filings:

Permit 79-07131 will be modified to reflect the four developed stock ponds on Banner Ridge, and recommended to be licensed as supplemental stored stockwater for 600 range cattle. No SRBA claim is required on this right.

Under A79-02074 and A79-04430, I found a total of 157 acres irrigation from North Fork Skookumchuck Creek. Evidence of the 1937 priority for the acres claimed as part of A79-04430 will need to be submitted prior to the finalization of the decree recommendation, but I have no reason at this time to believe that those acres will not be included.

Under A79-02032, internal use for a single home will be recommended. The irrigation use previously on that right has been included in the total 157 acres under the above mentioned rights from Skookumchuck Creek. There are two homes currently using the spring, but I am under the impression that one was recently added, which may necessitate an application for permit filing if that home remains on the system.

Claim A79-10036 will be amended to cover two developed springs located on Bouffard Flat in SW $\frac{1}{4}$ Section 6, T27N R02E. The claim as filed is inappropriate in that the 1978 developed uses are in violation of mandatory permitting statutes, and are represented on the license recommendations for permit 79-07131. Claim A79-10036 will most likely be recommended for stockwater for 300 range cattle at the Bouffard Flat location.

I am still recommending that either the current or new owner of this ranch file instream stockwater claims in the Snake River Basin Adjudication on both the McKenzie Creek and Skookumchuck Creek drainages. These filings are not affected by the moratorium, and may be made by either party, so long as the filing occurs before the decree recommendation deadline for that area, tentatively set for March 1998.

MICROFILMED

AUG 08 1994

Applications for Permit Nos. 79-07105 and 79-07110 for hydropower development, which were referred to in Mr. Luke's letter, are on hold at our office and have not been approved for development. Applications for permit are assignable; however, application 79-07105 has been recommended for rejection due to non-current Federal Energy Regulatory Commission (FERC) status, and application 79-07110 is being held pending financial and feasibility verification. No action has been taken on these applications since 1989.

With respect to new water right development in the Salmon River drainage, the Salmon and Clearwater Rivers Moratorium Order, which restricts all new consumptive appropriations from surface water sources, is still in place. The Order has been modified slightly to allow a few additional non-consumptive filings, but does not allow new irrigation. Developments from groundwater are not affected. A copy of the Amended Order is attached.

For your clients, the practical implications of the moratorium are that the development of a spring to deliver stockwater to a trough or tank will be allowed, as will the development of new domestic uses. The enlargement of the stock impoundments on Banner Ridge may be restricted to the deepening of those impoundments only. Enlargement by expanding the surface area of the ponds may cause an additional consumptive loss due to evaporation, but an exemption might be warranted under condition #7a on page 3 of the enclosed Order. These developments would require an approved Application for Permit prior to the commencement of construction.

Lands which have not been irrigated for five consecutive years may have forfeited any appurtenant water rights. New acres and any previously irrigated lands not included in the decree recommendation must have a new water right developed for them. Although new irrigation appropriations and other consumptive filings cannot be processed at this time, we are accepting those applications to be placed on hold until such time that the moratorium is lifted. All applications will then be processed in the order received.

Even though there is still a measure of uncertainty present, I hope this helps answer any questions on the potential for new water right development in the Salmon Drainage. Unfortunately, I am not able to give you any idea as to when the moratorium may be lifted. Please feel free to pass on this information to any interested party.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

RE: Cutler Brothers Skookumchuck Ranch

Dear Ms. Lowe:

Enclosed are proof copies of all water rights on record for Cutler Brothers Ranch. Included are:

Water Right Licenses 79-02032 and 79-02074 and corresponding Snake River Basin Adjudication (SRBA) claims A79-02032 and A79-02074;

Statutory (non-verified) claim to water right 79-04430 and SRBA claim A79-04430;

Water Right Permit 79-07131 (no SRBA claim required); and

SRBA claim A79-10036, based on beneficial use.

In September, I conducted a licensing examination for permit 79-07131, and partial field exams for the SRBA claims. I have not yet made recommendations based on my field visit. Based on my examination, however, I determined that there are some SRBA claims for instream stockwater and early spring developments which still need to be filed. Specifically, I advised instream stockwater claims for both the McKenzie Creek and Skookumchuck Creek drainages, and beneficial use claims for developed springs in SW $\frac{1}{4}$ Section 6, T27N R02E (Bouffard Flat springs). I have contacted Ross Cutler, and we have arranged to make those filings. If a purchase appears pending, please contact one of us so that we may expedite the filing of these claims.

Please contact me at 334-2190 if you have questions pertaining to these rights.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent
