MOTION TO CONSOLIDATE

If it pleases the court, Michael L Reid, Objector, desires to consolidate the above noted cases. The reason would be to save court time and resources, and to allow witnesses to testify once instead of 3 times. The above water rights all have right 22-2280 as their parent right, in 1987 there had been no splits to this right, and as such, the issues in these cases are almost identical.

If there are reasons not to consolidate these cases, let the defendants state what those are.

Dated this 20th day of April, 2009.

I mailed a true copy of this on April 21 to TJ Budge and SRBA Court.
