Dear Ms. Backlund:

It is my understanding that a copy of the instrument of transfer will adequately compensate for the lack of a signature of the new owner. I have revised the documents to reflect that the proof of ownership is attached with respect to each of the above referenced documents.

Thank you for your assistance.

Very truly yours,

COMMUNICATION DOCUMENTATION

September 4, 1998

Regarding:

A72-00226 AND A72-00227

Customer:

KATHRYN SALSTROM

From: Vikie Hancock

[illegible]

Kathy Salstrom called regarding a note I left on her door 9-2-98 while conducting field exams in the area. The above claims are currently owned by Gary Ingram, and include 4 acres that were expressly excluded in the deed from Steve Banta to Gary Ingram in 1995. I explained to her that she needed to complete the ownership change form left at her door, and that upon its receipt, I would be able to split the above claims to reflect that she owned 4 of the acres. She stated that she would get the forms in the mail today. Documentation of her inheriting the property from father Steve Banta are already included in her domestic claim number A72-10155.

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett
Technical Records Specialist

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Gary Ingram claims.

Kelly Christensen and I spoke to Mr. Ingram 9-2-98 about the 4 acres to the north of his place that was the original Steve Banta homestead. I told him that it was still included in the above claim numbers. He indicated that this 4 acres belonged to Mr. Banta's step-daughter Kathryn Salstrom, and that it should be split from his claims. He asked about the status of the water claims along the East Fork, and Kelly explained that we were in the final review process. We also indicated that there may be some small areas of his pasture to the north of his home that would not be recommended as they appeared to be dry knobs.

We left a note and Change of Ownership form at Ms. Salstrom's door, asking her to contact the office, which she did. After I explained the situation, she told me that she would send in the Notice of Change and supporting documents that day.
