**DEPARTMENT OF
WATER RESOURCES**

May 12, 2009

Dear Craig Saxton,

I hope I have acquired information needed to resolve water issue at Meadow Creek, further described as Sec.18,T13N,R22E, Water # 73-4099. I have made note that the legal description is not all the same on all forms which needs to be corrected. .

I have enclosed Aerial map from SCS 2004 and 1961 black and white from Idaho Archives which shows the land is irrigated.

An affidavits is also enclosed from person who irrigated the property in 1962, previous owners have passed away. The property is flood irrigated as there is no power available.

I have been irrigating this acreage every since I purchased the property, except for some of the dry years which didn't allow me to have adequate water for my water right.

Sincerely,

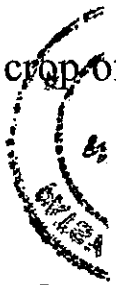

Gary Madsen

To whom it may concern:

I, Sharon Arrizubieta, - of 148 Hooper Ln. May, ID 83253 - Ph. (208) 876-4402, do state that, during the spring and summer of 1962 – I did help farm and irrigate two large meadows on the Meadow cr. Place, in the Pahsimeroi Valley, May, ID. There was ample water – enough for two waterings of each meadow. A bumper crop of barley was raised and harvested.

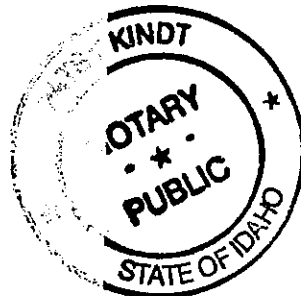

Sharon Arrizubieta
