Dear Ms. Backlund:

It is my understanding that a copy of the instrument of transfer will adequately compensate for the lack of a signature of the new owner. I have revised the documents to reflect that the proof of ownership is attached with respect to each of the above referenced documents.

Thank you for your assistance.

Very truly yours,

Dear Mr. Ingram:

Enclosed find profile reports of the updated version of your claims. I found that there were 0.5 acres in that little triangle of land just north of the EF-3 diversion, as you described to me on the phone today. That has been included in your place of use, and the "remarks" section of your claims has also been updated. I appreciate the time you have taken to assist the Adjudication process, and to help insure the accuracy of the Department's preliminary recommendations.

Sincerely,

Vikie Hancock

Dear Mr. and Mrs. Ingram:

Find enclosed a corrected copy of your place of use GIS image, and updated recommendations that reflect the changes in acreage in the NESW of Section 1 for both claims, and in the diversion amount printed on claim number 72-00226A.

I would appreciate your sending the Notice of Error forms back to me, but barring any further communication from you, I will proceed with the recommendation of your claims to the SRBA Court as they now stand.

Thank you for attending the meeting in Challis on the 8th. As it looks now, the actual Director's Report to the Court should go out sometime toward the end of January 1999. If I can be of any further assistance to you, please don't hesitate to call.

Sincerely,

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Gary Ingram claims.

Kelly Christensen and I spoke to Mr. Ingram 9-2-98 about the 4 acres to the north of his place that was the original Steve Banta homestead. I told him that it was still included in the above claim numbers. He indicated that this 4 acres belonged to Mr. Banta's step-daughter Kathryn Salstrom, and that it should be split from his claims. He asked about the status of the water claims along the East Fork, and Kelly explained that we were in the final review process. We also indicated that there may be some small areas of his pasture to the north of his home that would not be recommended as they appeared to be dry knobs.

We left a note and Change of Ownership form at Ms. Salstrom's door, asking her to contact the office, which she did. After I explained the situation, she told me that she would send in the Notice of Change and supporting documents that day.
