RECEIVED

FEB 17 1972

Department of Water Administration

R. Keith Higginson
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

Dear Sir:

In complying with your request of proof of construction of works and application of water to beneficial use on my property by right of approved permit No. 96-7045, I herewith send a map of our place, and the general uses of the water.

The Iskes' and Francis', as well as myself are permanent residents, and the cabin is rented year round, most of the time.

We have over 1000 raspberry plants, and a fairly large strawberry patch. We shall have over 1000 asparagus plants this year.

One parcel is set aside for organic restoration of fertility. All of these plots and parcels are irrigated as needed, according to the amount of rainfall.

The spring is walled with cement blocks. The outlet is a 6 inch plastic pipe, thence to a 2 inch pipe, thence in to smaller pipes for the use in homes, lawns or gardens.

These installations are, and have been in for over two years.

I swear the information above is true. If any further proof is needed, I shall be happy to comply.

Respectfully yours,

Vaughn F. Sargent
