RE: Late Claim No. 27-13887

Dear Mr. & Mrs. Cauzza:

I have been notified the court accepted your late claim no. 22-13887 for 0.80 cfs used to irrigate land in the SWSW S24, T06N, R45E. I would like prepare the recommendation on this claim in time to include it in the next late claims report which is scheduled for May, 2009. In order for this to happen, I need your help in outlining the parcel(s) actually irrigated with water from North Leigh Creek delivered by the Hubbard Ditch. Enclosed is an aerial photo of the place of use ("pou") taken in 2004. The highlighted blue square is the pou identified on your late claim. Please draw a line around the parcel(s) actually irrigated. Items normally not irrigated are out buildings, homes, drive ways and property with an elevation to high to be flood irrigated from the ditch or land strictly irrigated from a well. After you have highlighted the irrigated parcel(s) please return the map to me.

If you have any questions, please feel free to contact me at 208-525-7161.

Respectfully Submitted,

Ernie Carlsen
Water Resources Program Manager
