I. FINDINGS OF FACT

A notice of claim was filed for this water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation for the elements of this water right.

No objections were filed to this water right. However, the Idaho Department of Water Resources notified the court that the *Director's Report* for this claim contained an error. A hearing was held on January 30, 2009. At the hearing, IDWR asked the court for leave to file an *Amended Director's Report* to more accurately describe this water right.

An *Amended Director's Report* was filed on February 11, 2009. The *Amended Director's Report* was placed on the Docket Sheet. No objections were filed to the *Amended Director's Report*, and the time for filing such objections has now expired.

II. CONCLUSIONS OF LAW

Therefore, based on the file and record herein, IT IS RECOMMENDED that this water right be **decreed** with the elements set forth in the attached *Special Master's Recommendation for Partial Decree*.
