9/10/1998

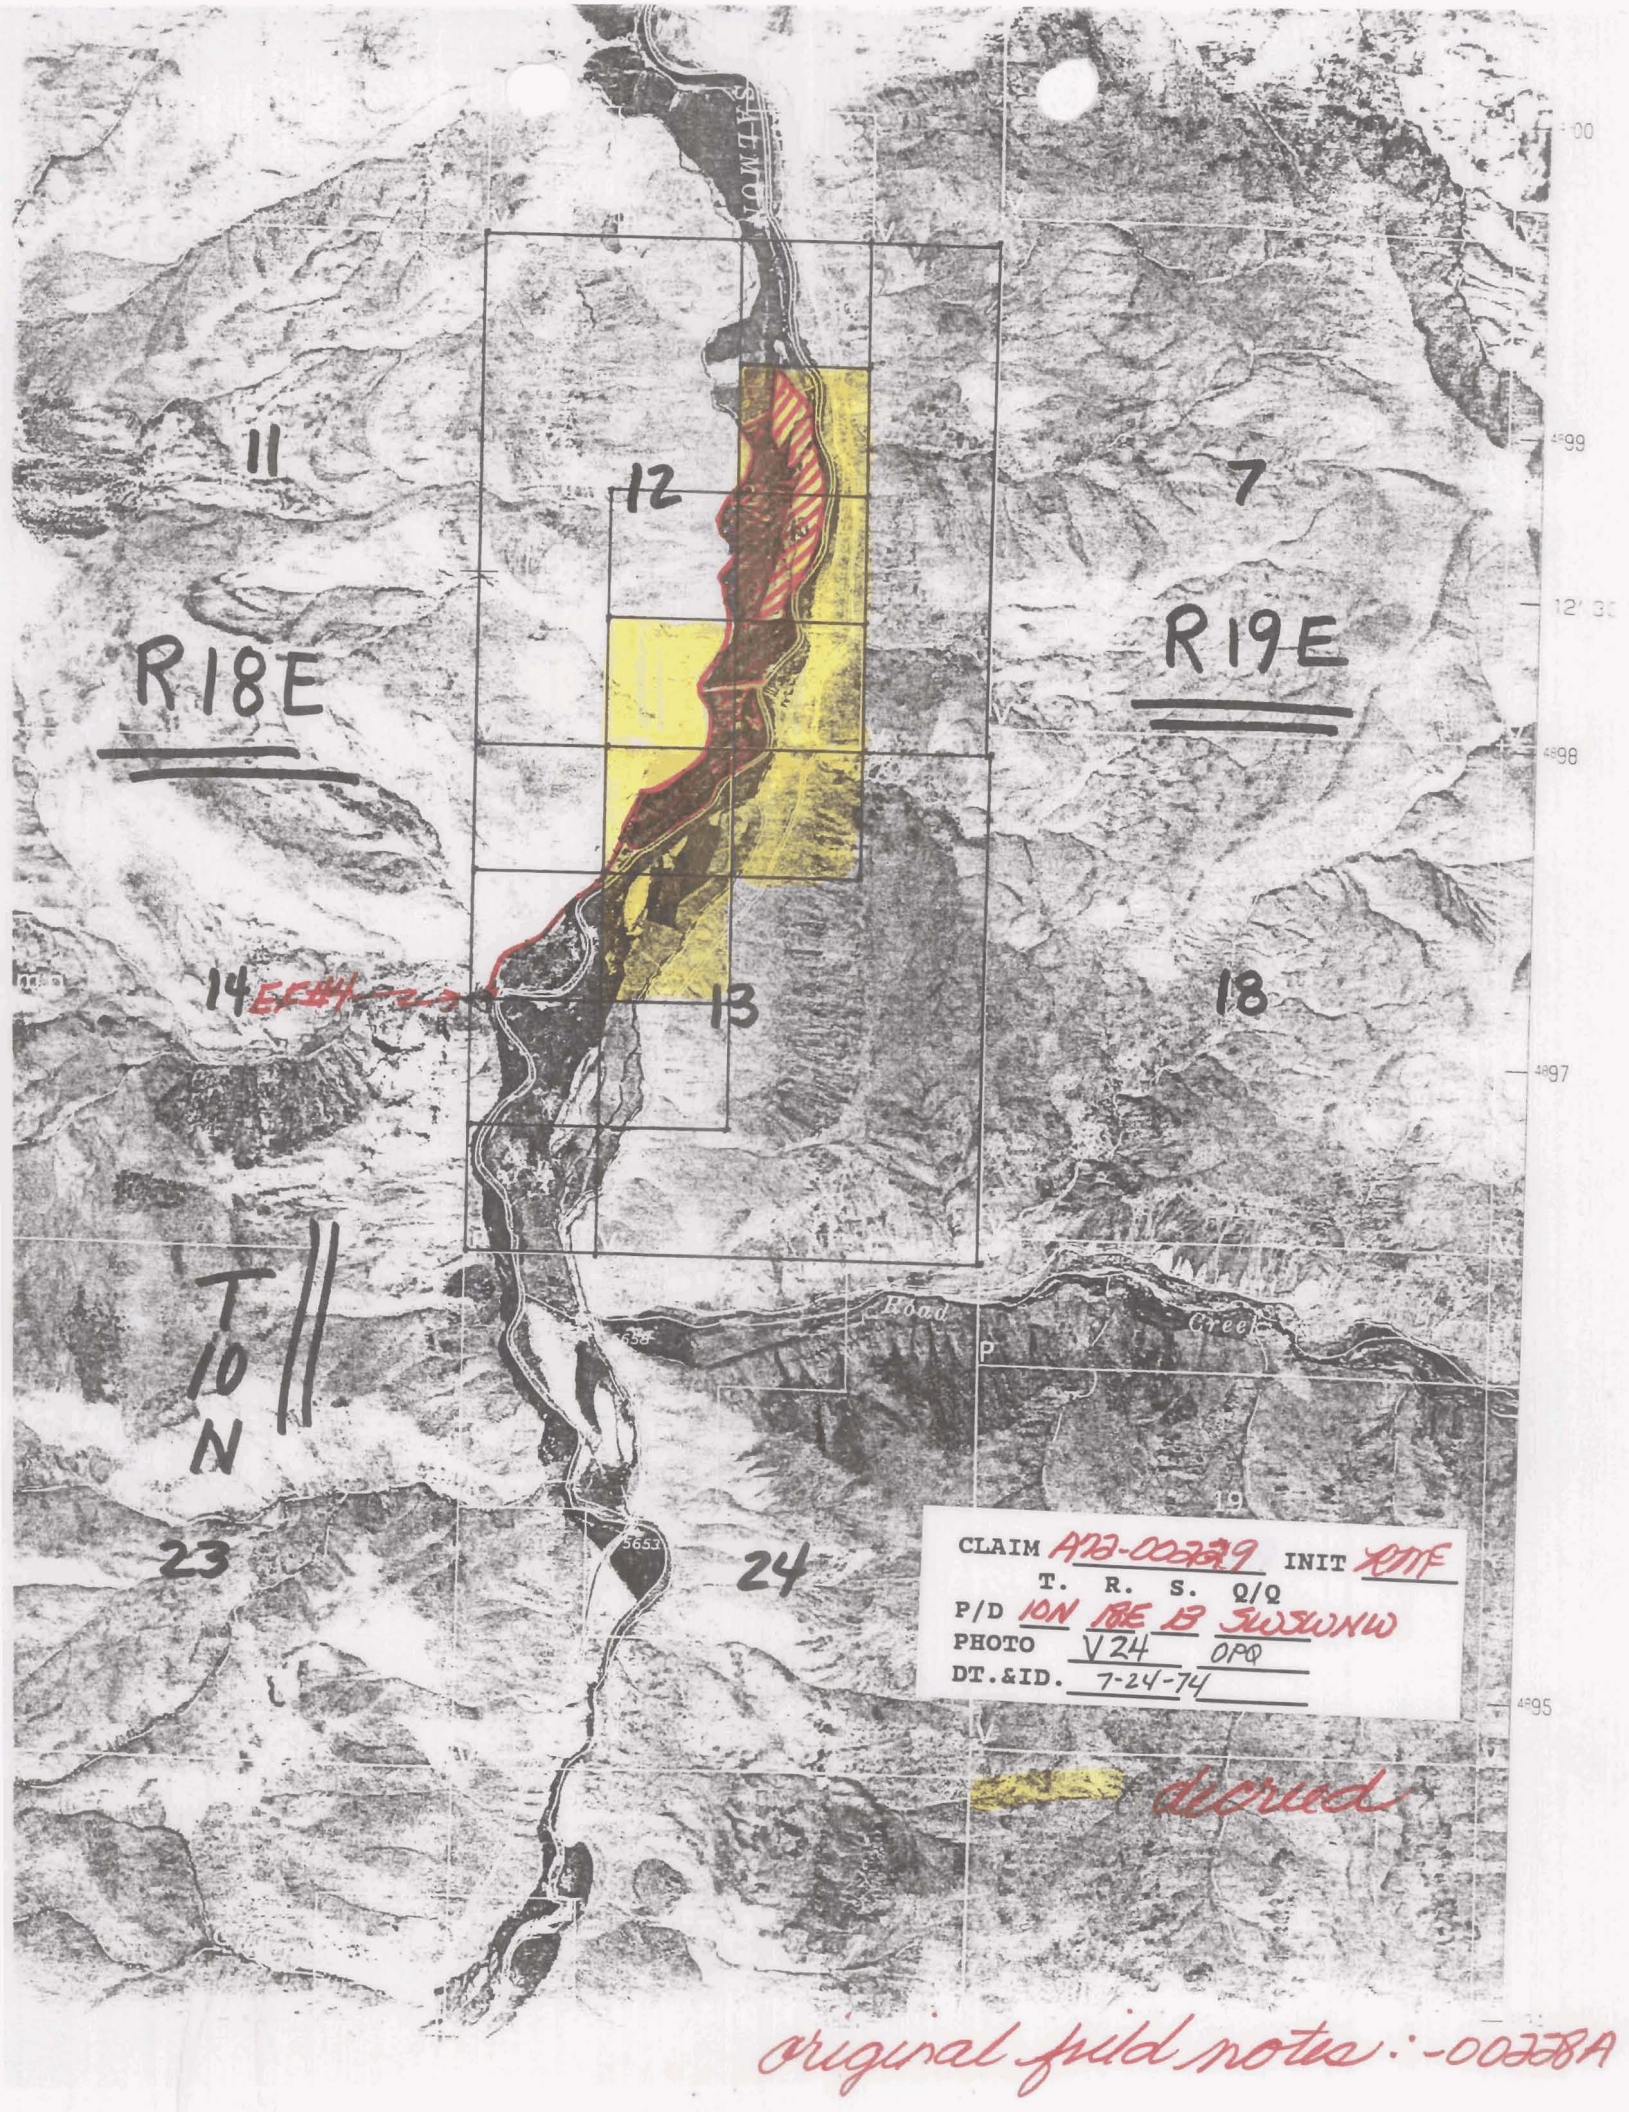

Agent: Vikie Hancock

Kelly Christenson and I met with Archie Sherwood on his property. We discussed the status of basin 72 in the adjudication, and told him we were in the process of final review. We asked him about the dry knobs just south of the Anderson property. He admitted that they were higher than the surrounding ground, and that he had plans to level them off and irrigate them. Kelly explained that we were bound by rules in the adjudication to report and recommend only what was existing at the time of the exam. We also asked him about the wooded acreage directly south of his house and yard, between his yard and the point of diversion. He stated that this area subs water from the river and that he had never had to irrigate it.

Mr. Sherwood also mentioned a spring that he was developing up the hill just west of the EF-4 fish screen and his point of diversion. This spring is tributary to the East Fork, and I observed this stream entering the river just upstream of the diversion works for claims 228A and 229. He indicated that he wished to develop this water for irrigation, and also to provide water for his dwelling. He said that he had already filed for a permit once and let it lapse, but that he had again begun to develop the spring. We told him he would have to contact the Allocations Bureau for a new water right.
