Subject: Olson rights 37-4323 and 37-4325

Good morning Mr. Arrington

We have a telephone status conference on these tomorrow at 2 pm. Our notes from the January hearing indicate you were going to get some diversion measurements this spring. Did that work out for you? Please let me know if you were able to make progress along those lines.

Thanks! -- Vicki Kelly, Paralegal - IDWR

Clare Olson
P.O. 136
Hill City ID 83337

Dear Mr. Olson:

I am Clayton Colthorp of Mountain Home ID and I worked for the Mountain Home Irrigation District for 26 years. At first I was ditch rider and then manager; during this time I was also Water Master for Basin 61 A, which included creek rights on Canyon Creek. I retired in 2006. I believe this qualifies me to measure water over a diversion/weir to determine the water flow.

I was contacted by the Olson's and was asked to measure some water on Camas Creek in Section 5 T02S R11 E B.M.. I went up to Hill City, Idaho on May 16, 2009 and measured the amount of water flowing over a concrete diversion/ weir, it measured 10.5 Cfs. I also measured the flow from Johnny's spring on this property but was unable to get an accurate measurement.

Sincerely,

A handwritten signature in black ink that reads "Clayton D. Colthorp". The signature is written in a cursive, flowing style.

Clayton Colthorp
