RE: SRBA Subcase Nos. 75-77A, 75-4337 & 75-10061K

Dear Mr. McFarland:

Previously IDWR has discussed with you the need for a Hubble analysis to be performed on your fields to be able to recommend a greater rate of flow for the above-referenced water right claims. The IDWR also informed you that IDWR staff would be able to conduct such an analysis.

Unfortunately, due to the current budget constraints, IDWR does not have the funding available to pay staff time to conduct the Hubble analysis. If Carm-Ida is interested in seeking additional water for the subject water right claims, it will need to contact a consultant to conduct the analysis at its own expense.

If you should need the names of consultants who can perform the analysis, please contact Bob Foster at the IDWR Salmon Office at (208) 756-6644.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Baxter", written over the printed name.

GARRICK L. BAXTER
Deputy Attorney General
Idaho Department of Water Resources

cc: Greg Taylor, IDWR
Bob Foster, IDWR
