STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

EAST FORK SALMON RIVER CLAIMS

CHERYL BAKER

AAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

SHE CALLED REGARDING THE POSSIBLE OBJECTIONS ON HER CLAIMS. SHE WANTED TO KNOW IF ANYTHING HAD ALREADY BEEN CHANGED, OR IF SHE HAD TO OBJECT TO CHANGE THINGS. I TOLD HER THAT IF SHE DID NOT OBJECT, THE CLAIMS WOULD ALL BE DECREED AS DESCRIBED IN THE PAPERS SHE GOT LAST WHICH WERE TITLED *DIRECTORS REPORT*. SHE SAID THAT SHE MAY NOT CHANGE THE ACRES ON 72-00193B & 72-02095, AS THEY FELT THAT THOSE ACRES HAD BEEN HISTORICALLY IRRIGATED. SHE ALSO INDICATED THAT THEY WERE GOING TO OBJECT TO 72-00190 ON HERD CREEK TO INCLUDE THE SOUTHERN PART OF THE FIELD. SHE DIDN'T THINK THAT IT WAS BLM, BUT WAS GOING TO CHECK. I REMINDED HER THAT THE OBJECTION PERIOD ENDED ON JUNE 2, 1999, AND THAT THEY WOULD HAVE AN OPPORTUNITY TO PRESENT EVIDENCE TO THE COURT IN SUPPORT OF ADDING ACRES TO THE POU. I ASKED IF SHE NEEDED ANY PHONE NUMBERS FOR BLM, AND SHE SAID THAT THEY HAD A GOOD WORKING RELATIONSHIP WITH THEM UP THERE, AND THAT HER COUSIN WAS THE ASSESOR, SO SHE WOULD CHECK OUT OWNERSHIP OF THE FIELD.

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: 72-00190, 72-00191, 72-00192, 72-00193B,
72-00194, 72-02095, 72-07095

Dear Cheryl,

I wanted to reaffirm the conclusions we came to yesterday regarding you claims on the East Fork, and also to inform you of my findings about the field on Herd Creek.

I believe that you concluded that claims 72-07095 (the one at your house), 72-00191 (McDonald Creek), 72-00192 (Fox Creek), and 72-00194 (1936 priority water from East Fork), are correct as recommended, and good to go for decree.

According to my notes, the field on the south side of the East Fork Salmon River in the SW $\frac{1}{4}$ of section 35 needs to be deleted from claims **72-00193B and 72-02095**, as there is no diversion of water to that side of the river into that area. This would leave a total of 1.2 acres remaining in the NE SW Section 35, along with the 6.3 acres in the SE NW.

In addition, the point of diversion described in the SW SW NE of Section 35 should be deleted from claim **72-00193B**, as that diversion served Wayne's part of the ranch only, and in any case has been removed since the claims were originally filed. Diversions remaining would be those in the SE NW NW Section 3 (Mormon Camp), and the SW NE SW Section 35, and NE SW SW Section 35 (pump).

Also, the point of diversion at the pump described as in the NE SW SW Section 35 should be deleted from **72-02095** which is based on the Shinderling license, leaving only the point of diversion located in the SW NE SW Section 35.

I did some investigating on the Herd Creek field, and according to the maps we have in the office, the southeastern half of that field goes into BLM ground. If you believe this is incorrect, your local BLM office may have additional information to the contrary, or perhaps there is a land use agreement on record for that parcel. In any case, you may still wish to claim this portion of the field as part of your irrigated place of use. With some documentation that the field was historically irrigated before commencement of the SRBA in 1987, along with the pictures of the irrigated field which exist in our file, IDWR

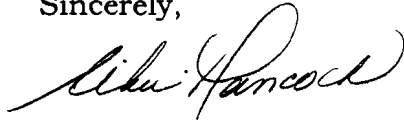

may agree to add those acres to your irrigated place of use. Be aware, however, that the BLM has been objecting to water rights claimed upon their land in the SRBA.

I am enclosing the forms you will need to object to your claims in order to correct them in any manner that you see fit. You will need one objection form for each claim, therefore I am sending you three, in case you should decide to object to 72-00190. You can also make copies, if you need more. These forms need to be sent to the SRBA Court in Twin Falls. They will inform IDWR when the official objection has been filed, and the process will go on from there. The period for filing an objection extends only until June 2, 1999, so I urge you to proceed with this in a timely manner.

I really enjoyed meeting you yesterday, and wish I could have spent more time up on the East Fork. If I can be of any help, please don't hesitate to call, however since this is now in the hands of the Court, my role is limited. I do have the number of the BLM Attorney in Boise, if you find you need that, and any information we have in our files is always available to you.

Bet you didn't get much of a tan while you were in Twin.

Sincerely,

A handwritten signature in cursive script, reading "Vikie Hancock". The signature is written in dark ink and is positioned above the printed name and title.

[illegible]

Cheryl Baker came into the office this date to discuss the recommendation of her claims on the East Fork Salmon River.

Regarding the above claim: she found the irrigated acreage to be correct with the exception of the 4 acre field in the NESW & SESW Section 35 on the south side of the river, which has been deleted. Points of diversion in lot 4 section 3, known as EF 9, (and also known to them as the diversion at Mormon Camp), the pump at NE SW SW Sec 35, and EF 8 at SW NE SW Section 35 were also confirmed. Diversion located at SW SW NE was deleted.

Re: Claims # 72-00194,00190-00192-00191-07095-02095-00193B

Dear Vickie,

I want to apologize for the slowness of my reply. What jolted me into action was the latest SRBA papers mailed from Karl Dreher. I noticed that all was the same- which is my own fault for not replying to you sooner.

I believe that it would be the best to get together in person if that is possible. I realize that the best would have been to be at your December 8th meeting, but the weather was a factor that night. If at any time you are going to be in Challis I would be happy to go there, if not possibly we could set up an appointment in Twin Falls at your office.

Once again- I am sorry for my slowness. It seems like time escapes me - most likely procrastination.....

Thanking you in advance,

Cheryl Baker

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: A72-00190, -00191, -00192, -00193B, -00194
-02095, -007095

Dear Mr. and Mrs. Baker:

I am writing in response to your Notice of Error replies to the above mentioned Adjudication claims. I would first like to answer your most asked question regarding stockwater, and then go on to address each specific claim.

All of the above claims were filed for Irrigation use only, with stockwater mentioned as incidental, and thus not an element of your water right. The *non-irrigation use* field found on the original claim form was not intended to be part of the actual recommendation. As a general provision, Idaho does consider de minimus stockwater incidental to any irrigation right. I can add an explanatory remark concerning stockwater that will be included in the recommendation, however, if you want it included as an element, you will need to amend your claims. Let me know if you wish to amend them and I can send you the forms needed.

Also, be aware that our recommendations for the number of acres included in the place of use is for irrigated acres only, and does not always match the total number of acres in the parcel. The number of areas outlined in yellow, which shows the recommended place of use, has been calculated by a computer program known as Arc View, which has greatly improved the accuracy of determining area. The exact shape of the field is still subject to human interpretation, however, so with that in mind:

Concerning claim 72-00190: You indicate that a point of diversion is wrong. I believe that I recommended the legal for the downstream diversion that was on the claim as filed, but it does look like it is more in the SESWNE on the GIS image. Is that what you are referring to? I can certainly change the legal description, or if you know the "dot" on the GIS image is wrong, indicate where it should be on the creek and I will correct it. Regarding the irrigated place of use, it would be helpful if you marked the acreage you feel should be included in the recommendation and send it to me. I partially relied on information in the file from former agent Frank Hitchcock, and may have misinterpreted some of his notes.

Claim number 72-00191: It is difficult for me to know what irrigated acres you feel should be included. Please indicate which additional acres are irrigated from McDonald creek, and the diversion works.

Claim number 72-00192: As you can see from your copy, there were not many distinguishing marks to go by when finding the irrigated boundary for acres watered by Fox Creek. Please show where you feel the additional acres should be added, and the diverting works.

Claim number 72-00193B: It would be very beneficial to talk to you about this claim. Considering the location of the various fields claimed under this right, I was unsure of how you were delivering water to all of them, and completely missed any diversion works in lot 2 Section 3. Are you indicating that all the acres are irrigated from the two points of diversion listed on your Notice of Error? We also received information from Melodie and D. Wayne Baker that the 8.8 acre field in the NWNNE of Section 35 belonged to them, and after investigating the Warranty Deed, found that right A72-00193 had been split wrong back in 1995. This changed the acres and diversion amount claimed on both the A and B portions (see enclosed).

Claim 72-00194: Please indicate on the GIS image the exact location of this point of diversion in the NWNNE and the diversion works from it. Also please show the location of additional irrigated acres.

Claim 72-07095: This claim is based on a license for 0.04 cfs for Irrigation. Stockwater can be included as a use in the SRBA Decree, but the diversion amount for stockwater must be included in the original amount licensed for irrigation. If you wish to file a separate claim for 0.02 cfs for stockwater, based on beneficial use, please let me know. Regarding the point of diversion, I tried to match the location of the pump as it was drawn on your application for permit included with the license. Please indicate the correct location on the GIS image if I'm way off.

Claim 72-02095: I have omitted the acres in the SWNE Section 35 from the place of use (see enclosed). Please indicate if there are other acres that you feel should be included in the irrigated place of use, and if so, the ditches or pipelines to them from the points of diversion recommended.

I have made the changes indicated above, but hesitate to do any more until I hear further from you. It would have been fortunate, had you been able to attend the meeting in Challis on December 8th, to have had the opportunity to sit down with you and go over all these claims. Perhaps a phone conversation, with both of us looking at the same map or GIS image, would suffice. Please feel free to call me anytime during business hours to discuss this further. We appreciate your prompt and continuing participation in the SRBA.

Sincerely,

Vikie Hancock
Water Resource Agent

NOTE TO FILE

From: Vikie Hancock

12/28/98

Regarding: Claim number A72-00193 Split to A and B

Receipt of a Notice of Error from Melodie and D. Wayne Baker required a correction to the way original claim A72-00193 was split during the change of ownership in 1995. Part of the acreage in NWNE Section 35 should have been included in A72-00193A in the name of Melodie and D. Wayne Baker. Former agent Frank Hitchcock split the claim per instructions received from claimants on May 30th 1995, however, these instructions subsequently seem to have been in error. Melodie Baker's Notice of Error is substantiated by the Warranty Deed submitted at the time of ownership change, which conveys the acreage in question in section 35 to Melodie and D. Wayne from Dick and Betty Baker. I am therefore adjusting my recommendation for place of use and diversion rate for both claim number 72-00193A and 72-00193B. Method of calculation below:

- Original claim 72-00193 - $5.2 \text{ cfs} / 222 \text{ acres} = 0.0234 \text{ cfs per acre}$.
- Claimed acres in NWNE Sec 35 = 15 ac Found irrigated = 10 ac
- Number of found irrigated acres in portion owned by Melodie and D. Wayne Baker = 8.8
- Number of found irrigated acres in portion owned by Richard and Cheryl Baker = 1.2
- Percentage of actual irrigated acres owned by M. and D. Baker = 88%
- Percentage of actual irrigated acres owned by R. and C. Baker = 12%
- 88% of claimed (15) acres = 13.2 acres
- 12% of claimed (15) acres = 1.8 acres.
- NWNE Section 35 should have been split as follows:
 - 13.2 acres to 72-00193A - D. Wayne and Melodie Baker
 - 1.8 acres to 72-00193B - Richard and Cheryl Baker
- Total acres and diversion rates for both claims should have been split at follows:
 - 2.49 cfs for 106.2 ac to 72-00193A
 - 2.70 cfs for 115.8 ac to 72-00193B

1. Describe the portion of the proposed recommendation with which you disagree (e.g., ~~read Irrigation and Stockwater~~). (1) Purpose of Use states Irrigation. This should read Irrigation and Stockwater. Doesn't show stockwater on preliminary, it does on our original and has been determined for historical beneficial use (2) Place of Use acreage is dropped here to 60.7 from 93. (3) Explanatory Material-The legal at SWNWSW is wrong (4) Recommended Place of Use on GIS not correct
2. Describe the changes you wish to make in the proposed recommendation:
(1) Purpose of Use: Should state Irrigation and Stock water-add stockwater as in the original-historical beneficial use right.
(2) Place of Use acreage should remain at 93acres. (3) Explanatory Material-legal at SWNWSW should read SWNESW as in the Pt of Div (4) Recommended Place of Use in yellow on GIS should include field in Section 35 NWNE
3. Give a brief explanation as to why you disagree with these portions:
(1) Our legal reads "Irrigation and Stockwater" and so should the preliminary. It was proven as historical beneficial use and still can. (2) Leave as in the original acreage. We may want to put in more ground either through need, better equipment, better water use, drain water, etc. We have paid for this right and should not have it taken away. (3) May be a typo (4) This field should be included in ground irrigated, do not understand exclusion. Legal is above.

 I AGREE with this proposed recommendation; no changes need to be made.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
