RE: ATTORNEY REPRESENTATION-YOUR CLIENT MALONEY

RECEIVED
DEC 12 1996
Department of Water Resource
Southern Region

I'm finally getting around to some housekeeping items that I've noted in the past.

As attorney of record for the Maloneys for their claims on Blk 2, Lot 8 of the East Fork Subdivision (A27-00176B and A72-00230D for Road Creek and Salmon River, East Fork respectively) do you want me to code the claims for their recent purchase of Lot 8 to show you as the attorney?

Not a big deal.

We are spending a lopsided chunk of time data entering on the domestic claims for the partial decrees which is another reminder of the tail of the dog. There is talk of proceeding to Basins 71 and 72 to do the domestics up your way next. Whee!

Let me know if you want the A code to be added. Best to all.

Sincerely,

Frank -

Do the code, but I'm sure copies of any notices should also go to Maloney as well. Their address now is:

NOTE TO FILE

From: Vikie Hancock

11/23/99

Regarding: Claim number 72-00230D Maloney

SF5 hand-delivered to me this morning was incorrect. The point of diversion listed on the SF5 was the legal for diversion site EF6, which is only used by Cresto 72-00230W. The legal description for EF5, which is the POD for the entire East Fork Subdivision (72-00230etc *except* 00230W) is **Section 24 SENESW**.

Claimants had already signed the SF5, BLM is going to re-submit one with the correct legal.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Claim No: 72-00230D

9/11/1998

Agent: Vikie Hancock

Kelly Christensen and I walked the Maloney property (lots 8 and 7 claims 72-00230D and 00230T) after talking to the Maloney tenant, Tracy Shaw, who stated that she irrigated the Maloney property. Lot 8 is the grass yard surrounding the dwelling, the dwelling, and the outbuildings. Shaw showed us the pipe from the spring which is located up Road Creek to the east, beyond the paved road, and which has a domestic water claim filed on it (72-10359). They only use this to irrigate the lawn with sprinklers (total gravity system) but since the pressure is irratic, they also use water from the ditch to flood. The grass yard is quite large and extends past some old log buildings to the north lot boundary fence. Nothing around the out buildings to the south is irrigated.

See pan photo in claim number 72-00230U for good picture of lots 7 and 8.
