Re: SRBA Subcase No. 36-00022 (Big Springs Water Users Association)

Dear Counsel:

Enclosed please find a draft Standard Form 5 for the above-referenced SRBA subcase. Please review it and get back to me with comments, concerns, and proposed revisions.

You will note that I attempted to use the Standard Form 5 format to address not only the agreement of the parties to describe water right number 36-00022 without the fish propagation use, but also to address the agreement to claim the fish propagation use as an expansion right. I am not sure this format works particularly well. It might be less confusing if water right number 36-00022 were the only subject of the Standard Form 5, and the agreement regarding the expansion claim for fish propagation were memorialized in a separate stipulation. Please let me know your thoughts in this regard.

You also will observe on the draft water right description for the expansion claim my uncertainty as to ownership and the precise date of priority.

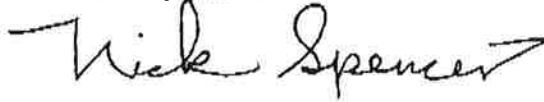

As to ownership I am at this point presuming that, since Mr. Lemmon's fish propagation is accomplished through the re-use of irrigation water provided him as a shareholder, Big Springs Water Users Association would be listed as the owner of the right. On the other hand, depending on the nature of the legal relationship between the Association and Mr. Lemmon, it may well be possible for Mr. Lemmon to claim the right in his own name. Pat, I would especially appreciate it if you would raise this question with your client and then give me your thoughts as to how this should be handled.

Mme. Hofstetter; Messrs. Barber, Brown & Marshall
June 20, 2001
Page 2

As to the precise priority date, that date obviously has to be prior to November 19, 1987, in order for the claim to come in as an expansion. I suggest that the most appropriate 1987 date may be the date that construction commenced. Would those of you who are more familiar with the discovery record than I am (i.e. each of you) let me know what you think the most appropriate date should be.

Thank you very much for your consideration. I look forward to hearing from you.

Very truly yours,

STANDARD FORM 5**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached Recommendation (Exhibit "A"). The parties and IDWR have further indicated their concurrence by initialing each of the attached pages of Exhibit "A".

The parties and IDWR further agree and stipulate as follows:

1. That the Big Spring Water Users Association [or Mr. George Lemmon in his individual capacity, if appropriate] will file with the SRBA Court a motion for leave to file a late claim, which late claim will be an expansion claim brought pursuant to Idaho Code §42-1426;

DRAFT

2. That the expansion claim will contain the elements as described in Exhibit "B" hereto;
3. That should the SRBA Court grant the motion for leave to file the late claim, IDWR will recommend it as described in Exhibit "B" hereto;
4. That should IDWR recommend the claim as described in Exhibit "B" hereto, the other parties to this subcase will not file objections to it.

ON 10/21/92, GEORGE LEMON AND MARION PUGMIRE MET WITH ME AND DECIDED THAT THEY DID NOT WANT TO COMBINE THE TWO DECREED RIGHTS THAT HAD BEEN ORIGINALLY FILED ON BY BIG SPRINGS WATER USERS (A36-015166). THEY AMENDED A36-15166 TO DESCRIBE A36-00023 AND FILED A NEW CLAIM FOR A36-00022. THEREFORE, ALL BACKGROUND WORK COMPLETED ON A36-15166 APPLIES TO A36-00022 AND A36-00023. AS STATED IN ABOVE COMMENTS 36-00022 WAS DECREED FOR 12.9. OUR REVIEW FOUND BENEFICIAL USE OF 11.24 CFS. THEREFORE, 11.24 CFS IS BEING RECOMMENDED UNDER 36-00022 AND 36-00023 HAS FOUND TO BE FORFEITED/ABANDONED. ADDITIONALLY, AS A RESULT OF THE RE-REVIEW, IT WAS DETERMINED THAT THE ACRES FOUND IN THE E1/2 OF SECTION 24 HAD BEEN ONLY PARTIALLY DESCRIBED IN THE RECOMMENDATION. THEREFORE, THE ACRES HAVE BEEN CHANGED TO REFLECT THE ACTUAL ACRES IRRIGATED, INCLUDING ACRES IN THE S1/2SE, WHICH WERE ADDED WHEN THE NEW AND AMENDED CLAIMS WERE SUBMITTED. ALSO, BASED ON A NEWLY SUBMITTED MAP AND LIST FROM GEORGE LEMON, DOMESTIC USES HAVE BEEN RECOMMENDED FOR 62 HOMES. SEE FILE FOR ADDITIONAL INFORMATION.

In Addition: There is now a way to research water rights over the Internet. The system is a graphical or text query system and can be accessed from the IDWR home page:

<http://www.idwr.state.id.us>

From that link, select "Snake River Basin Adjudication" toward the lower left hand of the screen. Then select "Map" or "Text" on the next page.

"TEXT" lets you search water rights via Name, Legal, Source, etc.

Enter in the information you know. Information can be entered under more than one tab. After you have completed entering your information, select "Search"

"MAP" allows you to search water rights graphically.

Use the tools on the Left side of the screen to Zoom in and out. To find out what each button does, hold the cursor over the button for a second. To the Right side of the screen are different layers that can be turned on or off. As you zoom in to your place in question, different layers will appear on the right side of the screen.

A HELP function is available within the application or you can call 1-800-451-4129 or (208)327-7906 for help.

Re: Notice of Appearance

Dear Mr. Brown:

We received your Notice of Appearance on behalf of Hagerman Water Owners, Inc. and its individual members on February 10, 1993. The records listed on the notice were updated with some exceptions.

Claim numbers with "A" prefixes identify claims filed in the SRBA. Claim numbers without prefixes identify recommendations in the Director's Report. The following table identifies claimants for which you filed a notice of appearance, but the number you referred to is actually the identification of the recommendation. They have been updated with the notice information.

Attached map and list were submitted by George Lemon to support the domestic uses supplied by Big Springs Water Users claim. Based on map & list, I have changed the recommendation to include all the "4"4s listed, but have identified a total of ~~60~~ 62 homes. I did not include the 2 industrial uses listed, nor 2 houses in SENE, Sec. 23 (Knight) or 2 houses in NWNE, Sec. 23 (Knight). ~~via~~

MEMORANDUM TO FILES

A36-00022
A36-00023
A36-15166

FROM: HELEN HARRINGTON-THORNTON
DATE: OCTOBER 23, 1992
RE: RECOMMENDATIONS AND RELATIONSHIPS

Big Springs Water Users Assn. originally filed a claim for combined decreed rights 36-00022 and 36-00023 under one claim, identified as A36-15166.

On 10/21/1992, representatives decided they wanted to file separate claims for each decreed right. Since the original filing claimed the later priority, they "amended" the original filing from A36-15166 to A36-00023. They then filed a new claim for A36-00022.

Based on the total review of the Big Springs claims, IDWR has found beneficial use of 11.24 cfs. IDWR did not find any beneficial use of water in excess of A36-00022 diversion rate.

A36-00022	claimed 12.9 cfs	recommended 11.24
A36-00023	claimed 5.0 cfs	disallowed.

Therefore, although A36-15166 was amended to become A36-00023, all the review work filed under A36-15166 is applicable to A36-00022.

In addition to the separating of the decreed rights, claimant also added additional acres in the S1/2SE1/4, S24 and NWSE, S13 which had been omitted from the previous filing. Also added was domestic uses in SENE, NESE, S23 and commerical and stockwater in NWSE, S23.

Based on knowledge of examiner, the irrigation in S13 was not added, nor was commercial or stock water which comes from the Buckeye according to the landowner (Knight). Irrigation in S24 was changed to reflect the added acres found in S1/2S1/4 as well as the recommendation was changed to reflect the total acres found in the E1/2, S24. This change was made in order to accurately describe the acres on which Big Springs water is applied.

The final recommendation was also changed to include domestic uses which were supported by the claimant by newly supplied lists and map.

RE: Big Spring water on his property.

DATE 10-21-92

NAME OF PARTY

DONNIE MCFADDEN

837-4478

I called and he returned my call.

I asked about his share of Big Springs right; he said it was 159 shares. I explained the amended claim which added his south 80 parcel to the system. He said that land did not have Big Spring rights but he did combine the two water sources (since he added the fish raceways in 1977.)

I mentioned trying to get the Domestic use completely identified. Donnie said they use it in about 7 homes on his place and he guessed about 40-50 houses outside the city limits were using it. He guessed about 300+ homes in the city on this system.

RE: NOTICE OF ERROR FOR WATER RIGHT NO. 36-15166

DEAR MR. LEMMON,

THIS LETTER IS IN RESPONSE TO THE NOTICE OF ERROR (NOE) YOU RECENTLY FILED WITH IDWR REGARDING THE DIRECTOR'S PROPOSED RECOMMENDATION OF THE CLAIM LISTED ABOVE. YOUR NOE OUTLINES SEVERAL POINTS WHICH I WILL RESPOND TO IN THE SAME ORDER YOU DESCRIBED IN YOUR LETTER.

#3 A. AFTER REVIEWING THE LAND LIST IN YOUR LETTER, MOST ALL THE PARCELS YOU IDENTIFIED ARE RECOMMENDED IN THE PLACE OF USE. THE TRACTS NOT RECOMMENDED ARE T07S, R14E, S19, W1/2NW, SWSW; T07S, R13E, S24, S1/2SE; S23, S1/2NE. THESE LANDS WERE EITHER NOT CLAIMED BY YOU OR NO WATER USES WERE FOUND UNDER THIS SYSTEM.

#3 B. THERE IS NO ERROR IN THE PRIORITY DATE RECOMMENDED. THIS IS THE DATE CLAIMED BY YOUR SRBA CLAIM ON FILE. YOU HAVE COMBINED TWO DECREED WATER RIGHTS UNDER ONE CLAIM AND WHEN THAT OCCURS YOU CAN ONLY BE ALLOWED THE LATEST DATE OF THE TWO, WHICH IS THE 4-1-1911 WE ARE RECOMMENDING.

#3 C. YOUR CLAIM IS FOR SEVERAL USES AS FOLLOWS: **IRRIGATION**; THIS IS A DECREED USE AND IS RECOMMENDING THOSE ACRES ACTUALLY IN IRRIGATION PRIOR TO NOVEMBER 19, 1987. ANY USE DEVELOPED AFTER THAT DATE IS AN EXPANSION OF YOUR WATER RIGHT. **DOMESTIC**; THIS USE HAS BEEN CHANGED TO REFLECT THE MUNICIPAL USE IN THE CITY OF HAGERMAN. OTHER DOMESTIC PLACES OF USE CLAIMED COULD NOT BE VERIFIED FOR THIS SYSTEM AND EVIDENCE SHOWS NO DOMESTIC USES. **STOCKWATER**; THIS USE IS LISTED IN YOUR CLAIM AS INCIDENTAL USE WITH IRRIGATION. UNDER THE PROPOSED RECOMMENDATION STOCKWATER IS STILL A VALID USE DURING THE IRRIGATION SEASON. **FISH PROPAGATION**; THIS WATER USE IS AN EXPANSION OF THE PREVIOUS USES THAT EXISTED AND NO LAWFUL APPROPRIATION HAS BEEN SHOWN FOR THIS DEVELOPMENT.

#3 D. THE DIRECTOR HAS APPROVED EXTENDING THE PERIOD OF USE FOR THE HAGERMAN VALLEY TO 3/15 TO 11/15.

THE PROPOSED RECOMMENDATION IS BASED ON IRRIGATION SEASON OF USE STANDARDS ADOPTED BY THE DIRECTOR FOR THE VARIOUS REGIONS THROUGH THE STATE. THESE STANDARDS ARE BASED ON THE PERIOD OF THE YEAR IN WHICH THERE IS LESS THAN A 75% CHANCE OF A 24 DEGREE F. FROST.

IN ADDITION, SINCE THERE ARE SOME YEARS IN WHICH WATER CAN BE BENEFICIALLY USED FOR IRRIGATION OUTSIDE THE IRRIGATION SEASON, THE PROPOSED DIRECTOR'S REPORT INCLUDES A GENERAL PROVISION WHICH PROVIDES FOR IRRIGATION OUTSIDE THE IRRIGATION SEASON UNDER CERTAIN CONDITIONS. THE CONDITIONS ARE THAT THE WATER IS BENEFICIALLY USED, AS DETERMINED BY THE DIRECTOR; THAT ALL WATER RIGHTS WITH A PERIOD OF USE OUTSIDE THE IRRIGATION SEASON REGARDLESS OF PRIORITY, ARE SATISFIED; AND THAT THE USE DOES NOT CONFLICT WITH THE PUBLIC INTEREST AS DETERMINED BY THE DIRECTOR. THIS PROPOSED GENERAL PROVISION WILL BE INCLUDED IN THE DIRECTOR'S REPORT.

#3 D. UNDER IDAHO LAW, A WATER RIGHT IS LIMITED TO THE AMOUNT OF WATER BENEFICIALLY USED FOR THE PURPOSES FOR WHICH THE WATER RIGHT WAS ESTABLISHED. THE AMOUNT OF WATER BENEFICIALLY USED IS LIMITED TO THE AMOUNT THAT IS ACTUALLY USED AND IS REASONABLY REQUIRED. FOR IRRIGATION PURPOSES, A REASONABLE AMOUNT IS THE AMOUNT REQUIRED USING IRRIGATION METHODS THAT ARE REASONABLY EFFICIENT UNDER CURRENT CIRCUMSTANCES. IF THE AMOUNT OF A WATER RIGHT SHOWN IN A DECREE IS GREATER THAN THE AMOUNT THAT IS BENEFICIALLY USED, THEN THE PORTION THAT IS NOT BENEFICIALLY USED IS FORFEITED. ENCLOSED IS PART OF THE IDAHO CODE THAT ADDRESSES THIS ISSUE.

THE AMOUNT PROPOSED TO BE RECOMMENDED FOR YOUR CLAIM IS BASED ON THE AMOUNT OF WATER DETERMINED TO BE BENEFICIALLY USED FOR THE RECOMMENDED USES, BASED ON AVAILABLE DATA AND CURRENT METHODS OF ANALYSIS. THE AMOUNT OF PROPOSED IRRIGATED ACRES IS THOSE ACRES FOUND TO BE ACTUALLY IRRIGATED BY THE SYSTEM CLAIMED. ROADS, HOUSES AND OTHER NON-IRRIGATED AREAS ARE NOT LISTED IN THE PLACE OF USE.

THE PORTIONS OF YOUR LETTER #4 A, B, & C HAVE BEEN ADDRESSED IN THE ABOVE PARAGRAPHS.

#5. YOU REQUEST TO HAVE THE SAME DELIVERY AND SERVICE AREA DESCRIPTIONS AS THE NORTHSIDE AND TWIN FALLS CANAL COMPANIES. THE CONCEPT OF THE SERVICE AREA DELIVERY APPLIES TO THOSE SYSTEMS IN EXCESS OF 25,000 ACRES. SMALL SYSTEMS SUCH AS YOURS CAN EASILY IDENTIFY AND REPORT THE ACTUAL IRRIGATED ACRES AND USES LEGALLY AND BENEFICIALLY DEVELOPED.

IF YOU STILL DISAGREE WITH IDWR'S RECOMMENDATIONS YOU WILL HAVE AN OPPORTUNITY TO FILE AN OBJECTION TO THE DIRECTOR'S REPORT WITH THE COURT. WHEN THE DIRECTOR'S REPORT IS FILED WITH THE COURT, YOU WILL BE MAILED A NOTICE THAT WILL CONTAIN MORE INFORMATION ABOUT THE OBJECTION PROCESS.

SINCERELY,

42-1402. Decreed rights appurtenant to land — Federal reserved water rights excepted. — In allotting the waters of any water system by the district court according to the rights and priorities of those using such waters, such allotment shall be made to the use to which such water is beneficially applied, except where federal reserved water rights are involved, in which case the allotment shall be made in accordance with federal law. The right confirmed by such decree or allotment shall be appurtenant to and shall become a part of the land on which the water is used, and such right will pass with the conveyance of such land, and such decree shall describe the land to which such water shall become so appurtenant, except in the case of a federal reserved water right. The amount of water so allot-

ted shall never be in excess of the amount actually used for beneficial purposes for which such right is claimed, or in the case of a federal reserved water right, in excess of the amount determined by federal law. ANALYSIS

Application of proviso.
Application of section.
Carey Act contracts.
Compliance with statute required.
Description of land.

Application of Proviso.

Proviso in this section was applicable only where litigant was in position to profit by the doctrine of relation, and one claiming by appropriation merely, without compliance with the statutes of this state, was not so entitled. *Reno v. Richards*, 32 Idaho 1, 178 P. 81 (1918).

Application of Section.

This section and cognate sections have application only where there is a full compliance with the statutes, and in the absence of such full compliance with respect to appropri-

ation of water, the doctrine of relation cannot be invoked. *Bachman v. Reynolds Irrigation Dist.*, 56 Idaho 508, 55 P.2d 1314 (1936).

Carey Act Contracts.

Provision of this section limiting allotment to amount actually used for beneficial purposes is read into contracts under Carey Act. *Gooding v. Idaho Irrigation Co.*, 265 U.S. 518, 68 L. Ed. 1157, 44 S. Ct. 618 (1924); *Sallee v. Commonwealth Trust Co.*, 8 F.2d 227 (9th Cir. 1925).

Compliance With Statute Required.

In the absence of the issuance of a permit and compliance therewith under this and other sections, an irrigation district was not entitled to prove beneficial use of any additional amount of water from a natural stream. *Bachman v. Reynolds Irrigation Dist.*, 56 Idaho 508, 55 P.2d 1314 (1936).

Description of Land.

Land to which decreed right is appurtenant or on which it is used need not always be described in decree, particularly in case of rental rights. *Farmers' Coop. Ditch Co. v. Riverside Irrigation Dist.*, 14 Idaho 450, 94 P. 761 (1908).

Phone: 208-837-4806

#3. The Idaho Department of Water Resources erred in the proposed recommendation for water right #. 36-15166 in that:

A. The Department erred by omitting land served by Big Spring Water; Big Springs Water Users Assoc. service area to be as follows:

Township 7 South, Range 13 East;
Section 13: NE 1/4 SW 1/4, S 1/2 SW 1/4, NW 1/4 SE 1/4, S 1/2 SE 1/4
Section 14: ALL NE 1/4, E 1/2 SW 1/4, ALL SE 1/4, SE 1/4 NW 1/4
Section 23: NE 1/4 NW 1/4, ALL NE 1/4
Section 24: ALL NW 1/4, ALL NE 1/4, NE 1/4 SW 1/4, ALL SE 1/4
Township 7 South, Range 14 East;
Section 19: W 1/2 NW 1/4, SW 1/4 SW 1/4

B. The Department erred in the date of priority because; Big Spring Water Users Association has priority dates of March, 1901 and March 1903 pursuant to H.E. Secor, et al, plaintiffs vs. M.J. Durfee, defendant, recorded in Book One of Civil Judgements on page 129. The Association also has a priority date of April 1911 pursuant to New International Mortgage Bank vs. Idaho Power Company, decree, Case #: 1602 United States District Court District of Idaho.

C. The Department erred in the types of use of the water, by not allowing domestic or stock water outside of the municipality of Hagerman. According to Secor vs. Durfee, use is described as: for domestic and other useful purposes. According to New International Mortgage Bank vs. Idaho Power Company, use is described as: the right to use, for irrigation, domestic, power and other purposes.

D. The Department erred in the period of use of the water, according to both decrees, Big Spring Water Users Association is allowed unrestricted use of it's water and has historically used water for "useful purposes", year round.

E. The Department erred in the maximum quantity of the right. As decreed in Secor vs. Durfee, Big Spring Water Users Association is allowed to use (240) inches of water with a priority date of March 1901, and (455) inches of water with a priority date of March 1903. As decreed in; New International Mortgage Bank vs. Idaho Power Company, Big Spring Water Users Association is decreed (12.9)

cubic feet per second with a priority date of March 1901 and (5) cubic feet per second with a priority date of April 1911.

4. Big Spring Water Users Association wish to have these errors corrected:

A. Water Right #36-15166 which combines 36-022 and 36-023, shall provide the right to divert and use a maximum quantity of (17.9) cubic feet per second, as provided in New International Mortgage Bank vs. Idaho Power Company decree.

B. Water Right #36-15166 shall include the service area of Big Spring Water Users Association, as stated above in 3-A, as being the land which this water right is appurtment to.

C. Water Right #36-15166 shall provide unrestricted period of use of the water, " for other useful purposes" as stated in New International Mortgage Bank vs. Idaho Power Company decree.

5. The people of the Hagerman Valley have lived with the 1932 United States District Court (New International Mortgage Bank vs. Idaho Power Co.) decree very well for seventy years. This court addressed the needs of the valley as to the soil types, water availability and established that the land required more than one inch per acre for irrigation. The Court also made the water appurtment to the area on a year round basis so that changes and development for "other useful purposes" such as fish culture, etc. could take place. The Court recognized the private ownership of land and water.

The Idaho Department of Water Resources proposed recommendation for Water Right #36-15166 does not include domestic, stock or other useful purposes. Big Spring Water Users Association is a water supply-delivery corporation and should be able to deliver water to lands, within it's district, for useful purposes similarly to the Twin Falls and North Side Canal Companies. Big Spring's is a closed system and any water not diverted for beneficial use, is returned to Billingsley Creek at the point of diversion. The recommendation of any less rights than those listed above, are the regulatory taking of property rights.

A COPY OF THE MINUTES OF THE MEETING OF THE HAGERMAN

PLANNING AND ZONING COMMISSION

April 12, 1988 7:00 P.M.

Present were: Charles Carter, Chairman, Laura McAnulty, sec. Gloria Jazwick, Bruce Reese, Mark Potter, Rhonda Christ, and Nellie Wilson.

George Lemmon was present to make application to the Planning and Zoning for a variance to allow 5 (changed to 4) fish ponds on the property of George Lemmon. Roy Jolley asked how much water will be needed to run the ponds? How many inches will be in the drainage from the ponds? Will it be continuous? George stated there would be 120 inches out of Big Springs Water Users. This will all be used for the fish ponds, then used for irrigation. After irrigation is over, the water will sent to McKnight's property by pipe. Mr. Jolley stated he wanted no fish pond drainage water in his ditch at any time.

Mr. McFadden asked if this project would have any adverse effect on the water to him.

Mr. Jolley asked Mr. McFadden how many shares of Big Springs water he had.

Cliff Jensen who has bought the Hess (Parsons) property, stated he wanted his water to go through the fish ponds and used for irrigation. He did state he wanted the drain water taken care of.

Mr. Jolley asked where the drainage water would go. He was told it would go south to McKnight's property.

Mrs. Mary Jolley again stated that they wanted clean water in their ditch from Big Springs and not through the fish ponds.

Mr. McFadden asked about where the Impact area for Hagerman was. It was agreed that the drain water would go to that part of McKnight's property outside of the Hagerman Impact area. Bruce Reese asked McKnight which ditch will accept the waste water. He was told it was the "Curran Ditch".

Cliff Jensen stated he will give a disclaimer to his property in the proximity of the fish ponds.

Mr. Reese moved to approve the variance if the disclaimer from Jensen was received and that non-irrigation water leaving the ponds shall meet EPA standards. Rhonda Christ seconded. There were three YES votes, Reese, Potter, and Christ. There were two NO votes, Wilson and McAnulty.

Meeting adjourned at 8:15.

RE: Fish Propagation

Dear George:

A client has asked me to check the files of IDWR for evidence of your water right to use Big Spring water for fish propagation in the NW1/4 of Section 24, T. 7 S., R. 13 E.B.M., Gooding County, Idaho.

In checking the filings, we find nothing recorded at IDWR for this use. This seems strange to us since as watermaster you are an official subject to the rules of the Department. This is probably an oversight on our part. Please supply me with the information concerning this use so I can reassure my client.

I'm told that previous to your fish propagation use the water not diverted overflowed into the Billingsley Creek. The water from your fish facility apparently now is discharged to the Curran Ditch and ends up in the Buckeye Ditch, in a different drainage.

I hope you can clear this up for me.

Respectfully submitted,

JOHN A. ROSHOLT

RE: Claim in the SRBA

Dear George:

Please find enclosed a draft of an amendment of claim A36-00022 based on our conversation last Friday.

Please note that the amended claim replaces Claims A36-00022 and A36-00023 which we entered on our computer system however you did not think that our data entry accurately reflected your original mailed in claims.

Please look the claim over carefully and if it reflects the way you wish to claim your water uses please sign it before a notary and return it with the additional fee of \$20.00. (Note that you have already paid \$1288 for the original two claims and the fee for the claim as amended would be \$1308 so there is a balance due of \$20)

If you have any questions please feel free to contact me at my office.

Sincerely,

Allen Merritt, P.E.

Dear Mr. Lemmon:

This office recently received a copy of your application to the Hagerman Planning and Zoning Commission for a special use permit to construct fish raceways on land in the S1/2NW1/4 Sec. 24, T7S R13E.

Please be advised that the department's records indicate no water rights for fish propagation with a place of use in this tract.

Any diversion of water for fish propagation, even though the water may already be diverted for other uses, will require a water right for the new use to be established through the statutory process of filing an application for permit.

Forms and instructions for making an application for permit are enclosed. If this office can be of any assistance in completing an application, please let us know.

Dear Mr. McFadden:

Enclosed is a copy of my letter to George Lemmon regarding water rights for his proposed fish raceways.

In regard to your question about rights for your own fish propagation water use, a water right claim may be filed if use of the water started before May 25, 1971.

At this point in time, a statutory claim is not required if a timely Snake River Basin Adjudication claim is filed.

If your use of the water for fish propagation began after May 25, 1971, an application for permit must be filed to establish a right.

Dear Loren:

Here is a copy of George Lemmon's application for a special use permit. His hearing date before Planning and Zoning is April 12th at 7:00 p.m. - Hagerman City Hall. I have been using my Big Springs and Weatherby Springs water for fish since the summer of 1971. I do not have a permit but was told that I did not need one because of the 1971 commencement date. I don't want George Lemmon (who tells me that he does not need permits because his water rights says "and other uses") to do anything to adverse my position. Please advise me.

The area to be developed is currently in agricultural production and we are seeking a special use permit to enhance this use. We wish to use our irrigation water through fish raceways before it is used for irrigation of our crops.

Please note that this is the same water supply that now flows through existing pipes and would result in the same discharge of waste water we have always used; into the Curan ditch and onto adjacent farmland. We will use existing irrigation pumps and move them to the bottom of the fish ponds.

We believe that denial of this special use permit would reduce our property value as well as our property's productive ability.

We don't expect that any negative conditions or circumstances would result from this development or use of the resources.

The granting of this variance would not confer on us any special privileges that others in the district do not also have access to for their own property.

Sincerely,

Geo H Lemmon
