In a phone conversation with Ruth Brunker, (lot 16) I was informed that lot 17 just north of them and previously owned by Nancy Logar, had been sold to a Colleen Coyne, PO Box 2062, Ketchum, 622-5522. I sent a letter to Ms. Coyne and enclosed an Ownership Change form for her to complete and send back to us. Ruth also verified that they were sprinkler irrigating the lot owned by Coyne from the pump that they have put in the East Fork on their parcel, and that it was their horses that I saw in the pasture on September 2nd, 1998.

RECEIVED

FEB 14 1994

Department of Water Resources
Southern Region Office

Dear Mr. Hitchcock,

In response to your letter of 1/31/94, SRBA Claims: A72-00176F, 00230J, 00230K, 00230L, 00230M, 00230N were completed with considerable help from Mr. Worstell of the IDWR staff. The cooperative relationship between Mr. Boyer (acting as my agent) and Mr. Worstell is documented by 1) Mr. Boyer's letter of 1/4/90 to Mr. Worstell, 2) five or more telephone conversations to Mr. Worstell logged by Mr. Boyer between 10/31/89 and 6/29/90, and 3) certified mail receipts dated 1/7/90 and 1/12/90. At our request, Mr. Worstell completed questions 2,4,5 and was to plot the point of diversion in order to complete question #15 on the "Notice Of Claim" forms prior to the filing deadline. This is documented by draft forms in our possession, by his initials on the certified mail receipt dated 1/7/90, and his logged phone call to Jeff Boyer on 1/9/90 in which he suggested that we file a second claim on an alternate source for the water right on Lot 6, Block 1.

The competent help of Mr. Worstell was very much appreciated and was necessary on those questions that involved local inspections of physical features (i.e., #4, #5 and the P.O.D. for #15) and on questions relating to existing water right decrees (i.e., #2). Since completion of the filings, we verified the information provided by Mr. Worstell. I have copies of the "Water Rights Proof Reading Reports" dated 9/22/87 that document answers to Questions #2 and #15, and have confirmed answers to Questions #4, #5, and #15 with Mrs. Baker (one of the local irrigators) by telephone.

In order to clarify your broader questions regarding these filings, it was our clear understanding (based on several conversations between Mr. Boyer and Mr. Worstell before and after the filings were made) that it was the intent of the Department to help complete these filings where knowledge of local decrees or specific physical features was required. On several occasions Mr. Boyer was assured that the applications could be completed WITHOUT our direct observation. We were given the distinct impression that this type of assistance was absolutely normal and customary.

We believe this should answer the questions raised in your letter and would appreciate a written response to that effect.

Sincerely,

SRBA Claims: A72-00176F, -00230S, -00230K, -00230L,
Dear Sirs: -00230M, -00230N.

I am currently reviewing the claims you submitted on January 8, 1990, as part of our field exams completed in the East Fork Subdivision last summer. I enclose a copy of the cover letter we recieved with the claims that describes incomplete responses to fields 2, 4, 5, and 12.

There aren't any notes in the file to show any basis for information to complete these essential parts of the claims. In order to complete my review of these claims I need to have a written reply over your signature identifying the information for each water use claimed for each lot.

I can't tell from the forms how the information for each claim was filled in. None of the maps in each claim have a point of diversion shown. All of the sections are filled in on the original forms but there is no way of determining the source of the information as the letter states that these fields couldn't be answered by Jeff Boyer who signed the letter and submitted the fees.

Your written response must reach me by February 15, 1994. We are working towards a deadline in order to report our recommendations to claimants and ultimately to the court.

Yours Truly,

Francis G. Hitchcock
Water Resource Agent Sr.

Dear Bob,

Enclosed are eight water right applications Form No. 42-1409(2)a, along with 2 checks to cover filing fees.

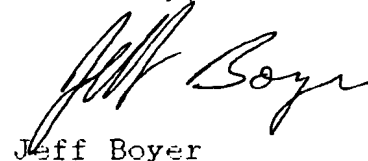

I have enclosed one complete copy of "The East Fork" subdivision map and attached an abbreviated version of same to each respective application with the individual lot highlighted. I hope the extra maps will help with your review of the applications.

As we discussed I would appreciate your help with Question Numbers 2,4,5, and 15 on each application. The forms are returned with the yellow, applicants copy, attached because the answers to these questions are not complete.

If I can help with any questions, please call me at (702) 784-5242.

Thankyou very much for all your help in completing these applications.

RE: Snake River Basin Adjudication (SRBA)
Claim Number: 72-00230H

Dear Ms. Coyne:

As part of our Notice of Error process, you requested a change in your claim that required an amendment, and an amended claim was sent to you for signing and notarizing. Please be aware that the Department has now sent our Director's Report to the SRBA Court. As your signed, amended claim was not received in this office before the mailing date of the Report, your claim was recommended as it appeared in the Preliminary Director's Report.

If you still wish to amend your claim, you must now petition the SRBA District Court to do so. I am enclosing a form that you will need, which includes directions for requesting the filing of amended claims with the Court. I suggest that you file your request *after* you have received your recommendation for this claim in the mail, as there will be information contained in that packet which may be useful to you. You may also wish to telephone the Court for complete instructions, and their latest procedures regarding the amending of claims included in a Director's Report.

If, after receiving your individual copy of the Director's Report, you have any questions about this or any other claim, please feel free to call me.

Sincerely,

RE: Snake River Basin Adjudication (SRBA)
Claim Number: 72-00230H

Dear Ms. Coyne:

I am in receipt of your Notice of Error reply for the above referenced claim. In it, you requested a change in the quantity, and described a change in the diversion rate from 0.15 cfs to 0.36 cfs.

The quantity currently recommended for your water right is the quantity that was originally claimed. I cannot increase the diversion amount of my preliminary recommendation unless you amend your claim to an increased diversion amount. I am, therefore, enclosing an Amended Notice of Claim form. This form represents your claim as it was originally filed in 1990, but with an amended diversion amount equal to the rate you specified in your Notice of Error dated December 29, 1998. This amended Notice of Claim form does not reflect any other changes that I recommended for this right based on subsequent investigation.

Please be aware that a claim for a certain quantity does not guarantee that quantity will be recommended. Based on soil analysis of your lot, and your irrigated acreage, I would be inclined to recommend a diversion rate of 0.34 cfs for this water right.

If you wish to amend your claim as described, please sign and notarize the enclosed amended claim form and return to me as soon as possible. The actual Director's Report to the SRBA Court is scheduled for mailing January 12, 1999, and it would be very beneficial to have this corrected before that time. If you have any questions, please don't hesitate to call me.

Sincerely,

Vikie Hancock

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
