RECEIVED

Department of Water Resources
Southern Region Office

Dear Mr. Hitchcock,

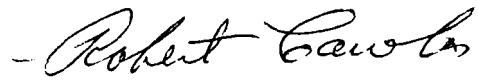

In response to your letter of 1/31/94, SRBA Claims: A72-00176F, 00230J, 00230K, 00230L, 00230M, 00230N were completed with considerable help from Mr. Worstell of the IDWR staff. The cooperative relationship between Mr. Boyer (acting as my agent) and Mr. Worstell is documented by 1) Mr. Boyer's letter of 1/4/90 to Mr. Worstell, 2) five or more telephone conversations to Mr. Worstell logged by Mr. Boyer between 10/31/89 and 6/29/90, and 3) certified mail receipts dated 1/7/90 and 1/12/90. At our request, Mr. Worstell completed questions 2,4,5 and was to plot the point of diversion in order to complete question #15 on the "Notice Of Claim" forms prior to the filing deadline. This is documented by draft forms in our possession, by his initials on the certified mail receipt dated 1/7/90, and his logged phone call to Jeff Boyer on 1/9/90 in which he suggested that we file a second claim on an alternate source for the water right on Lot 6, Block 1.

The competent help of Mr. Worstell was very much appreciated and was necessary on those questions that involved local inspections of physical features (i.e., #4, #5 and the P.O.D. for #15) and on questions relating to existing water right decrees (i.e., #2). Since completion of the filings, we verified the information provided by Mr. Worstell. I have copies of the "Water Rights Proof Reading Reports" dated 9/22/87 that document answers to Questions #2 and #15, and have confirmed answers to Questions #4, #5, and #15 with Mrs. Baker (one of the local irrigators) by telephone.

In order to clarify your broader questions regarding these filings, it was our clear understanding (based on several conversations between Mr. Boyer and Mr. Worstell before and after the filings were made) that it was the intent of the Department to help complete these filings where knowledge of local decrees or specific physical features was required. On several occasions Mr. Boyer was assured that the applications could be completed WITHOUT our direct observation. We were given the distinct impression that this type of assistance was absolutely normal and customary.

We believe this should answer the questions raised in your letter and would appreciate a written response to that effect.

Sincerely,

A handwritten signature in cursive script, reading "Robert Cowles".

SRBA Claims: A72-00176F, -00230S, -00230K, -00230L,
Dear Sirs: -00230M, -00230N.

I am currently reviewing the claims you submitted on January 8, 1990, as part of our field exams completed in the East Fork Subdivision last summer. I enclose a copy of the cover letter we recieved with the claims that describes incomplete responses to fields 2, 4, 5, and 12.

There aren't any notes in the file to show any basis for information to complete these essential parts of the claims. In order to complete my review of these claims I need to have a written reply over your signature identifying the information for each water use claimed for each lot.

I can't tell from the forms how the information for each claim was filled in. None of the maps in each claim have a point of diversion shown. All of the sections are filled in on the original forms but there is no way of determining the source of the information as the letter states that these fields couldn't be answered by Jeff Boyer who signed the letter and submitted the fees.

Your written response must reach me by February 15, 1994. We are working towards a deadline in order to report our recommendations to claimants and ultimately to the court.

Yours Truly,

Francis G. Hitchcock

Dear Bob,

Enclosed are eight water right applications Form No. 42-1409(2)a, along with 2 checks to cover filing fees.

I have enclosed one complete copy of "The East Fork" subdivision map and attached an abbreviated version of same to each respective application with the individual lot highlighted. I hope the extra maps will help with your review of the applications.

As we discussed I would appreciate your help with Question Numbers 2,4,5, and 15 on each application. The forms are returned with the yellow, applicants copy, attached because the answers to these questions are not complete.

If I can help with any questions, please call me at (702) 784-5242.

Thankyou very much for all your help in completing these applications.

RE: Snake River Basin Adjudication (SRBA)
Claim Number: **A72-00230K**

Dear Mr. and Mrs Garman:

Thank you for responding to our Notice of Error request. I hope that I can explain your recommendation to your satisfaction.

First of all, the word "none" will be removed from the Purpose of Use field. This word is actually part of a sentence which reads: "Uses other than Irrigation - None" and was printed through some programming error. Your water right is being recommended for irrigation use, as claimed.

I have enclosed another computer generated aerial photo to help illustrate the method I used to calculate 4.2 irrigated acres. Our program used Custer County tax lot boundary lines, provided to us by the county, to locate the various lots within the East Fork Subdivision. These were superimposed on 1988 NAPP aerial photos, and were rectified to section lines. Your lot boundary is in orange, and by computer calculations, it actually includes 5.3 acres.

By law, the Department can only recommend water for use on the acres that you are actually irrigating. With that in mind, I subtracted the 0.9 acres of your lot that is covered by the East Fork, and that lies on the west side of the East Fork. I also relied on my visit to your lot to subtract 0.2 acres in the corner just east of your ditch. If you can more accurately define the irrigated boundary of that area, please mark the map and return to me so that I can adjust my recommendation. Be aware that, in any case, the diversion rate that is being recommended will not change, as I was able to allow the total amount of water that you originally claimed.

If you still feel that an adjustment is necessary to your claim, please contact me here at the office, anytime during business hours, and I'll be glad to discuss this further.

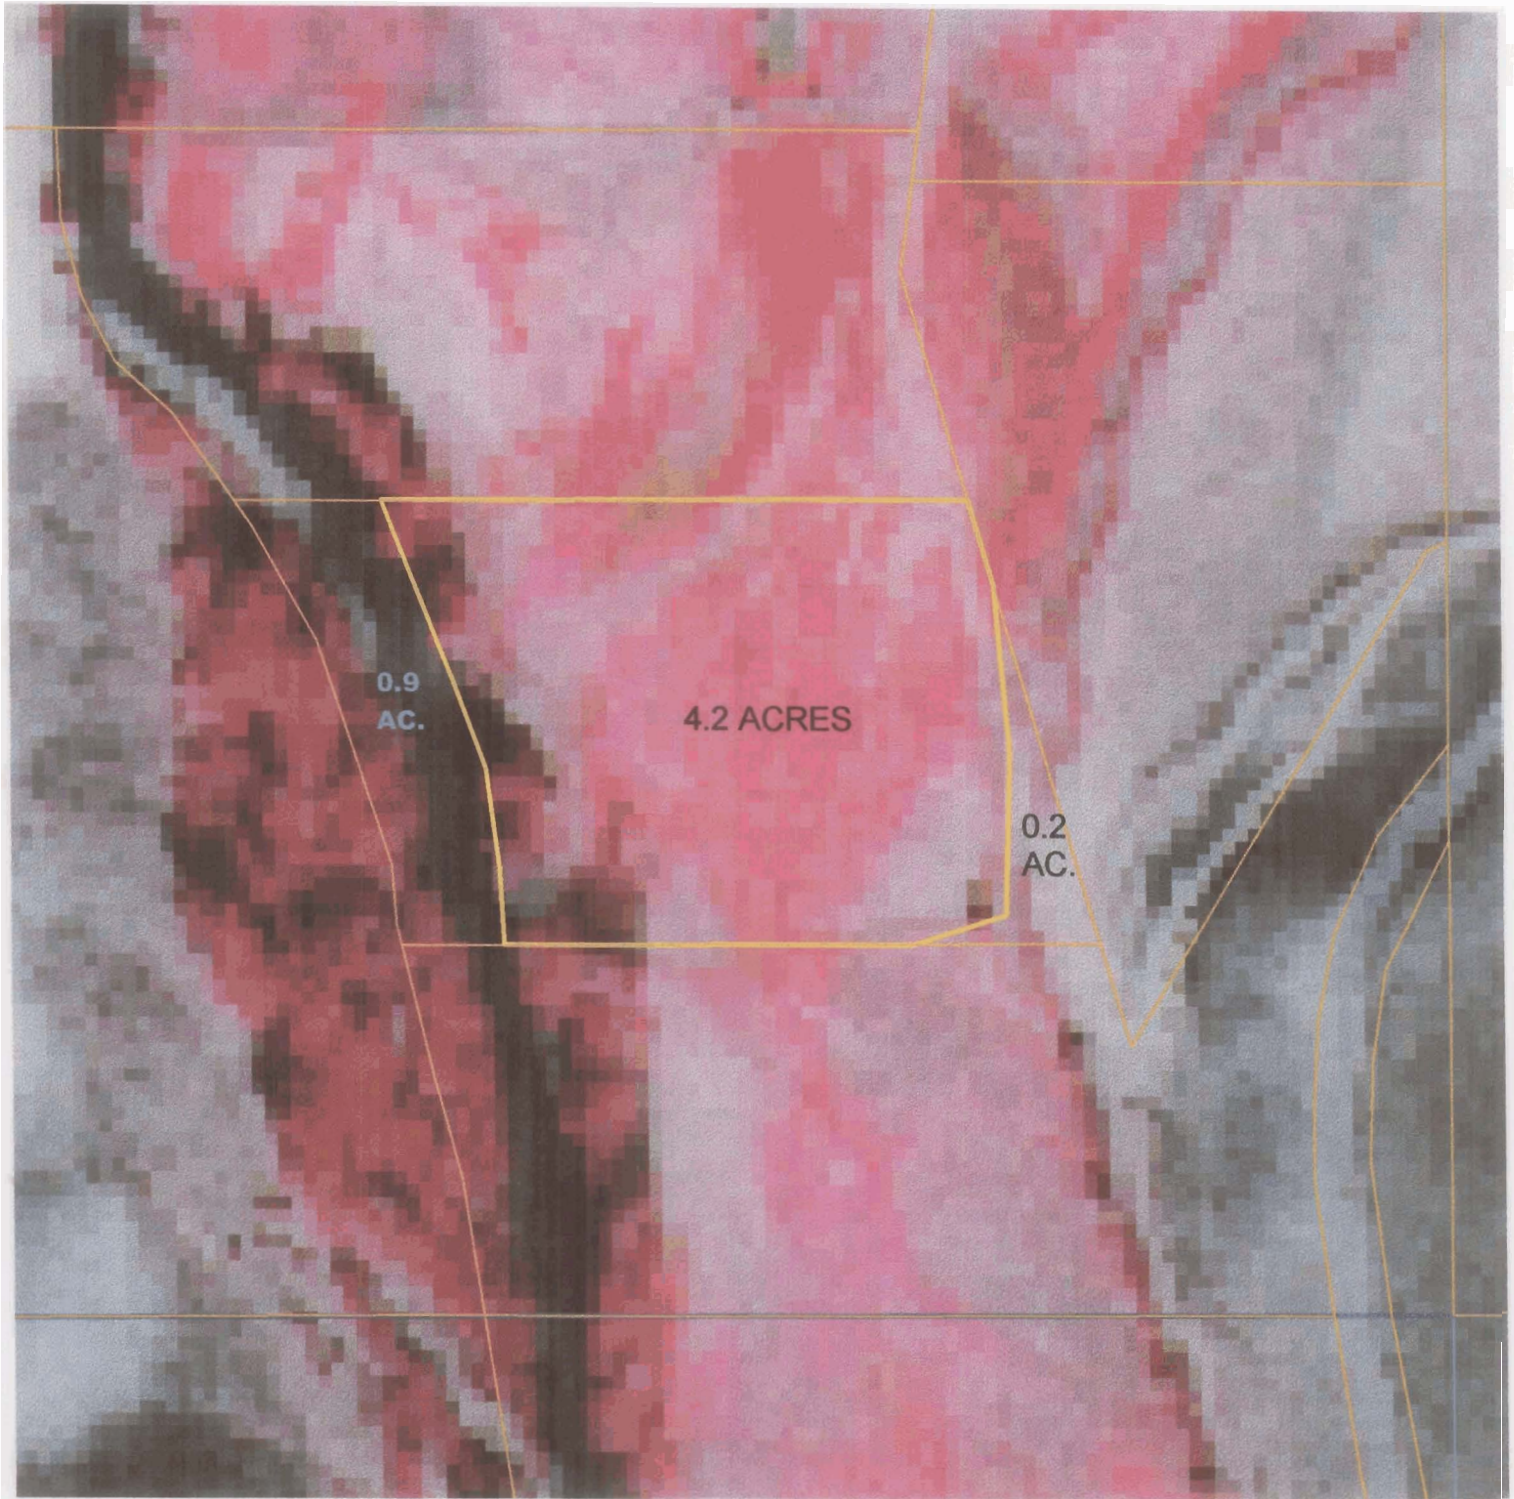

Sincerely,

A handwritten signature in cursive script, appearing to read 'V. Hancock'.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

-In the printout included with this, it mentions the "Purpose of Use" and states "Irrigation None." This is not true. We use this for irrigation. Also we have 5 acres under irrigation, not 4.2

2. Describe the changes you wish to make in the proposed recommendation:

Correcting the "Purpose of Use" to read: "Irrigation" and listing 5 acres as the total acreage.

3. Give a brief explanation as to why you disagree with these portions:

It has always been 5 acres and has always been used for pasture irrigation

 I AGREE with this proposed recommendation; no changes need to be made.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Photo taken from a knob overlooking lot 14. Photo looking west.

Photo shows active irrigation at the time of observation. Water is evident in several small ditches crossing the property, and there are canvas dams present, which do not show up in the picture. Water is diverted onto the property by the owner directly from the main subdivision ditch, which runs through the southeast corner of his lot. This is also the point at which a feeder ditch takes off to Bendio's (lot 15) and Brunker's (lot 16), traveling along the east boundaries of lots 14, 15 and 16. At the time of observation, Mr. Garman was staying in the RV and talked to us about the status of the adjudication.

He waved us down & talked to us about the adjudication and showed us his ditches. Claimants periodically stay on the property in a small RV. They also own lot 12 across the river which has no claim associated with it.
