BOB INSINGER, A PARTNER IN THE INSINGER RANCH, CALLED AS A RESULT OF MY LEAVING MY CARD IN HIS GATE WHILE I WAS ON THE EAST FORK DURING THE WEEK OF 06-12 TO 06-16. I REVIEWED HIS POU LANDS AS I HAD DISCOVERED AN APPURTENANT DECREE USAGE WHEN I REVIEWED HIS CLAIMS LAST WINTER.

I VISITED WITH HIM ABOUT THE LACK OF PD FROM THE EAST FORK (CLAIMED AS PD #2 IN A72-00232A) AND SENT HIM, AS DISCUSSED, CCS OF MAPS, AERIALS WITH COLOR MARKINGS AND A PROOF COPY OF THE WR AND THE ACTUAL LANGUAGE FROM THE DECREE FOR HIS REVIEW.

AFTER WE CLEAR UP THE DISCREPANCY ON THE 2ND PD I WILL PURSUE THE REFILEING OF THE LITTLE BOULDER CREEK USAGE CURRENTLY A B.U. CLAIM. I HAVE FOUND DECREE USAGE THAT IS CLOSE TO THE AMOUNT OF DIVERSION FOR HIS IRRIG UAGE AT THE RANCH UNDER THE B.U. CLAIM AND WOULD GIVE HIM A SENIOR PRIORITY DATE BY 16 YEARS. *

BOB FOSTER CALLED THIS MORNING TO REPORT THAT HE WILL BE UP ON THE EAST FORK THURSDAY, 06-29, TO CATALOG IF&G SITES SO HE WILL GO BY THE INSINGER RANCH AND TRY TO GET A MEASUREMENT ON LBC OR AT LEAST SOME PIX SINCE IT WAS TOO IRREGULAR AT LEAST IN THE REACH WE OBSERVED ON 06-15-95. RE: Water Rights in Reporting Area 4, Basin 72
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in part of basin 72 (Upper Salmon River area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouse in Challis and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Tuesday, December 8th at 7:00 p.m. in the Challis Middle School auditorium.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant,

To help you with your water right claim(s) in the Snake River Basin Adjudication, this information is sent to you by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. Preliminary Recommendation. This is IDWR's *initial* conclusion about your water right and how it should be reported to the SRBA Court. It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. Error Correction/Settlement Process. This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Daniel C. Hurlbutt, Jr.", is written over the typed name.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
