There was a typo in that last e-mail. Changed \$145 to \$148.

Hey Andrea,

This is a weird one. It appears that the claimant submitted filing fees for 4 SRBA claims back in 1989. With those claims they sent a filing fee of \$147.50. We sent several some, if not all of the claims back to them in 1989 because they were incomplete. We asked them to fix the errors and re-submit the claims but they never did send the claims back in. We never refunded the \$147.50. So we had filing fees but no claims.

Now, they are submitting claims 61-7023 and 61-12228. The filing fee for these two claims is **\$148.00**. So we are going to apply the fees paid back in 1989 to the claims filed with the court.

If the motions are granted, we will link receipt W006883 to claims 61-7023 and 61-12228. If the court does not grant the motion, we will refund the claimant their 1989 filing fees.

I will file this e-mail with the motions. Again, this is an FYI for your files incase you need it for the initial hearing.

Thanks,

Craig

If this receipt belongs to Margaret Cox then I don't see that it has ever been refunded.

Sascha,  
Can you research this?  
Thanks,

Hey Debbie,

Can you tell me if we ever refunded any or all the money under receipt W006883? This would have been back in 1989-1990.

The situation is that we have the claimants son informs me that his mother submitted claims with fees back in 1989. We sent back the claims because they left off information and told them to fix the claims and send them back to us. Then they never sent the claims back to us. So we ended up with \$147.50 filing fee but no claims. The story seems to fit because I have no record of any claim filed for the claimant.

Now, Ms. Cox is filing two late notices of claim in which the filing fees total \$145. I am trying to figure out if I can apply the fee under W006883 to the late claims.

Thanks,  
c
