Re: Change of Ownership 75-10102

Dear Sir:

We are in receipt of a letter from Department of Water Resources stating there was a clerical error in the water right change and we are now requesting that you set aside the partial decree to correct the error. The water right has a place of use in the SESE of T21N R22E sec 06 and the lot is identified in the warrantee deed as SWSE of T21N R22E sec 06.

Please let us know if there is anything else we need to do to make this correction. Thank you for your help.
