IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA

Case No. 39576

A. Subcase 37-297E

MOTION TO FILE LATE
OBJECTION

_____)
Tamera L. Clifford (the "Claimant"), by and through her undersigned counsel of record and)
pursuant to Idaho Rules of Civil Procedure 7 and 55(c), hereby files this Motion to File Late)
Objection to Water Right 37-297E. This Motion is supported by the Affidavit of James P. Speck)
in Support of Motion to File Late Objection and Motion to File Amended Notice of Claim filed)
contemporaneously (the "Affidavit").)

Claimant seeks an order from the Court granting leave to file a late objection to the nature)
of use, quantity, and period of use of this irrigation water right (a copy of the proposed Objection)
is attached hereto as **Exhibit A**). At the same time, Claimant has filed a Motion to File Amended)

Notices of Claim for the same water right changing a portion of the right presently claimed and recommended for irrigation to diversion to storage, aesthetic storage and aesthetic purposes on the basis of Idaho Code Section 42-1425 for “accomplished transfers.”

The factual grounds for this Motion are set forth in the Affidavit. In his *Order on Motion to Set Aside Partial Decrees and File Late Objections*, Subcase Nos. 65-07267, *et al.* (Jan. 31, 2001) (“A.L. Cattle”), Presiding Judge Burdick succinctly explained the standard governing motions to file late objections as follows:

In subcases for which partial decrees have not been entered, the legal standard for filing a late objection to a water right claim in the SRBA has been historically determined pursuant to the standard set forth in *AOI* for filing late claims since *AOI* does not expressly provide a standard for reviewing late objections. A motion to file a late claim is determined pursuant to I.R.C.P. 55(c), which provides the standard for setting aside the entry of a default. *See AOI* § 4d(d)(d) (late claims reviewed under I.R.C.P. 55(c) criteria) and (k) (leave to amend a notice of claim shall be freely given when justice so requires). In determining whether to set aside the entry of a default under I.R.C.P. 55(c), Idaho Courts apply a “good cause” for untimeliness standard. I.R.C.P. 55(c). The “good cause” standard is a more lenient threshold than the Rule 60(b) standard. *McFarland v. Curtis*, 123 Idaho 931, 935, 854 P.2d, 274 (1993). The I.R.C.P. 55(c) standard takes into account the following factors:

- 1) whether the default was willful;
- 2) whether setting side the judgment would prejudice the opponent; and
- 3) as with a Rule 60(b) motion, whether a meritorious position has been presented.

A.L. Cattle at 6-7.

Importantly, this Court has significant discretion to grant a motion to file a late objection, and its decision will not be reversed on appeal unless an abuse of discretion clearly appears. *Memorandum Decision and Order on Challenge*, Subcase Nos. 47-16433, *et al.*, at 9 (J. Melanson, March 22, 2005) (“*Bedke I*”). In doubtful cases, relief should be granted to reach a judgment on the

merits. *Bedke I* at 10. Default judgments are disfavored. *A.L. Cattle* at 8.

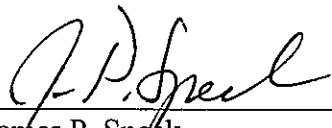

The submission of this Objection after the deadline is not “willful.” Instead, it is due the relatively recent determination that a pond sitting on three adjacent subdivision lots since prior to November, 1987 is too large to qualify as just an “irrigation holding pond” and, therefore, requires water rights for the storage of water in the pond. The sole purpose of the Objections is to create subcases for contested water rights which, in turn, will be the subject of the Motion to File Amended Notices of Claim as described above. Assuming the motions are granted, the Court can then set by a scheduling order deadlines for amended director’s reports, objections to the amended director’s reports and responses to the objections. In that way there will be no prejudice to any other party to the SRBA.

Finally, the proposed objections together with the Motion to File Amended Notices of Claim state a meritorious position on modification of the water right recommendations. Collectively these Motions will result in the consistent recommendation of the water rights appurtenant to three adjacent subdivision lots which all share the use of the pond sitting on the three lots.

For the foregoing reasons, Claimant respectfully requests that the Court grant its Motion to File Late Objection and to accept for filing the objection attached hereto as **Exhibit A**.
