- The POB on tinchip creek is on USFS. So Terry's going to check with Daniel at the Soda office for a copy.
- also he's going to see if he can get copies of the patents.
- documents of when the diversion on Hadulie crk + The Unnamed Stream was developed.
- Hadulie crk might also be on USFS land.
- Amend claims to claim the land in the SESW Sec 5 and NENW of Section 8, all within TSS R46E B.M.

Mark Nicholl - Caribou lands LLC is under contract to purchase this property.

11/13/06 Rec'd evidence of priority documents. The documents from Gilbert Hadulie's diary would be sufficient to document.

To whom it may concern: This is an affidavit for Terry Haderlie.

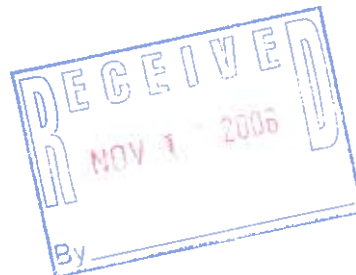

I have been leasing and operating the Haderlie Ranch since 1998. I myself since then used the irrigation water from Tin-cup for watering livestock and have attempted to use temporary sprinkler pump out of the ditch to try to irrigate for a second crop.

I have talked to Terry about putting in a permanent sprinkler system and how it would double the crop yield and make it more beneficial for the both of us.

COUNTY OF CLARK

Dennis Juel Haderlie, of lawful age and first being duly sworn on his oath, states and deposes as follows:

1. I am an adult citizen and I make this Affidavit on the basis of facts that are within my personal knowledge.
2. I was born July 9, 1938 and from the time I was old enough helped my Father Gilbert S. Haderlie clean and maintain and irrigate his farm from the ditch diversion on the south side of HY 34 approximately mile marker 109.
3. I continued helping my Father on through my High School and College years with the exception of 1958/1960 when I served a mission for my Church.
4. I helped clean the ditch with my Backhoe and help my Father irrigate his farm even after I married in 1964 and worked on construction for several years until my younger Brother Terry G. Haderlie purchased the Farm.
5. I don't recall the exact dates, but I know my Father had to pay the Forest Service \$25.00 a year for use of the area covered by the ditch where it runs through before entering private land. He paid several years before a Wyo Rancher told him they couldn't charge him because the ditch and water right had been established prior to the establishment of the Forest Service in the 1800's. The ditch and water right had been dug mostly by hand and established when my Grandfather Charles Haderlie Homesteaded the farm in the late 1800's and then became a joint water right between my Father and his Brother John Haderlie who purchased and Homesteaded 640 Acres adjoining my Father's property. There was water in the Ditch for at least 70 years.

The upper ditch appears to have been abandoned and a house built across where it was. However, it is possible both ditches served the POW in 1987 and at the time of claims taking. Re: Idaho water right claim A24-04074A

Dear Mr. Haderlie:

Idaho Department of Water Resources has asked me to investigate some water rights from Tincup Creek, so that the Department may recommend these water rights to the court in the Snake River Basin Adjudication.

To help me make my report, could you please mark on the attached map the lands that you own and irrigate? Also, please let me know what the history of irrigation of these lands has been since 1985. I'd like to know how many acres you irrigate, how big a stream you use, and how often you irrigate. Also, please tell me the last time your place was irrigated.

This water right claim is still in the name of Gilbert Haderlie. Please fill out the enclosed "Notice of Change of Ownership" and mail it to IDWR at the address on the back of the form, along with a copy of all the deeds for ownership changes between Gilbert Haderlie and yourself.

Please call me at (208) 681-9100 if you have questions. If you no longer own this farm, please let me know who is the owner.

Thank you,

Bryce A. Contor

RE: EVIDENCE OF PRIORITY

Joe

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter (if there are more than one) has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY

Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by OCTOBER 31, 1994, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,
