STATE OF IDAHO)

) ss.

County of Cassia)

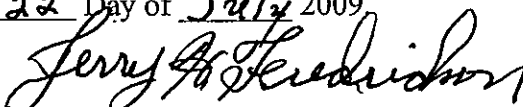

I, JERRY D. FREDRICKSON, being duly sworn upon oath, state as follows:
H J H

1. I make these statements based on my personal knowledge.
2. I moved to the "government camp" at Lake Walcott in 1942 when I was 6 years old and continued to reside there until I married in 1956. The camp was established to house Reclamation employees and their families. It occupied the grounds that are now Lake Walcott State Park. At the time I moved there, the camp was well established and included trees, park lands and houses with lawns. I recall that the lands were irrigated with pumps.

3. One pump was located on Lake Walcott and was used to irrigate park land in what we called the "upper areas." Two other pumps, located off the North Side Canal, were used to irrigate the lawns and common areas around the camp's housing.
4. From roughly 1955 to 1987, I was employed by Reclamation. During that time my permanent duty station was at Minidoka Dam, which stores water for Lake Walcott. While working at the dam I observed that Reclamation employees continued to use the pumps for irrigation of the Park.

Further your affiant sayeth naught.

DATED this 22 Day of July 2009.
