

July 8, 2009

Diana,

Enclosed is a letter and attachments ~~from Jon Weilmunster,~~ regarding Right No. 63-4938. I am assuming that he spoke with you about his Partial Decree, since he had addressed this letter to you, but sent it to our address.

I am also attaching copies of letters that were sent to the previous owner regarding Evidence of Priority, of which Mr. Weilmunster was sent copies of these letters. We did not receive any responses to the letters; therefore the irrigation use was removed from the recommendation and was recommended as stockwater only. I thought this information would be helpful in the decision whether to rescind the Partial Decree or not.

Let me know if you need anything additional from our files.

Thanks,

A handwritten signature in cursive script, appearing to read 'Lori'.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: A63-4938

Dear Claimants:

In the past, you submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out. It appears that you no longer own the property, however, because the department has not received a change in ownership for the claim, you are still listed as the current owner of record, which is why you are receiving this notice.

You indicated, when this claim was filed, that the water right was based on a "Statutory Claim" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, an accurate location of your diversion and acres irrigated needs to be identified on the attached aerial photo. Please include as much detail regarding your diversion system as possible. If more information is needed, you will be receiving a call from us in order to set-up an appointment for a field exam.

Page 2

The required evidence supporting the priority date requested and clearly marked aerial photo needs to be submitted by August 10, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

A handwritten signature in black ink, appearing to read "Lori Graves".
