2006 NAIP PHOTO

This is an aerial photograph of a wetland or marshy area. A prominent, dark, winding waterway or channel runs through the center of the image. The surrounding land is a mix of dark green, light green, and white patches, indicating different vegetation types and possibly bare soil or sand. A yellow grid is overlaid on the entire image. In the bottom right corner, there is a north arrow pointing upwards, labeled with a black 'N'. The text '2006 NAIP PHOTO' is printed in black in the lower-left quadrant of the image.
