RE: Water Rights for Parcel (pin) no. 0456000B013B Kootenai County, Idaho

Dear Sirs,

I purchased this property in June 2000. At that time it had an irrigation pump which was used for irrigating my yard and my neighbors (W. 9869 Twin lakes rd.) across the road. In April of 2001, the power source for this irrigation pump was changed from a dedicated meter (removed) to the elec. meter from our house. To this day we irrigate our yard from the lake. Our local water co-op(Upper Twin Lakes Water co.) does not allow us to use our domestic water for irrigating the yard.

The prior owners of 1945-1952 had also used the lake for irrigating the yard.

If you have any questions please call:

Dear Mr. Anderson:

We have looked at our records and we can tell there has been a service at what is now 9874 W Twin Lakes Rd. since at least 5/15/1984. Our records indicate the service was installed to provide electricity to a $\frac{3}{4}$ hp pump which we had on our irrigation rate.

The electric service was then removed 4/25/2001.

Sincerely,

Fleck

Sr. Billing Representative
