Re: A24-04078 Irrigation and Stock Claim
A24-04079 Domestic (for house) Claim
A24-04080 Irrigation Claim
~~A24-04081 Irrigation Claim~~

Dear Ms. Bird,

We are in receipt of your November 3 letters, giving us a response deadline of November 23, 2005.

We will be calling for an appointment to understand exactly what we need to do or can provide.

In the meantime we respectively request an extension of the deadline to allow us to determine and research what you need.

We have irrigated the claimed lands (and used domestic and stock water) since acquiring the property in the early sixties, diverting from these sources into the ditches and pipeline (from a spring to an outside faucet) that existed when we bought the place. The previous owners established the ditches and used these water sources as well.

Respectifully,

Richard Petersen

Re: Snake River Basin Adjudication (SRBA)
Claim 24-4081

Subject: EVIDENCE OF PRIORITY CLARIFICATION

Response Date: 23 NOVEMBER 2005

Dear Claimant (s):

We are in receipt, and have reviewed, the documentation you furnished last November. However, this documentation does not completely satisfy the required needs for IDWR to make a recommendation to the SRBA Court.

The Notice indicates the claim is based on statutory use. Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.** Many land patents were submitted. The land patents may mention that with the land there is also given a "vested and accrued water rights for mining, agricultural, manufacturing or other purposes". However, this does not establish that the water was put to use, it only authorizes how it can be utilized.

Furthermore, the land patents themselves, do not fully satisfy the evidence of priority requirements. Sufficient land patents were submitted covering all the claimed quarter-quarters. However, we need documentation that show a clear chain of ownership from the claimed priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion

works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by the above noted response date referencing **all documents with the corresponding Notice number.** If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird/bjp

Re: Snake River Basin Adjudication (SRBA)
Claims 24-4078, 24-4080, 24-4081

Subject: EVIDENCE OF PRIORITY

Response Date: 28 November 2004

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 24. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The basis of the above referenced Notice of Claim is a "statutory claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of**

Evidence is Required" and **"Some examples of Documents Which May Be Evidence of the Priority Date".**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.

I am also a Change In Address of Notice of Claim form. Please complete this form and return it to this office so that our records will contain your official address.

Please submit the documentation supporting the priority date by the above noted response date referencing <u>all documents with the corresponding Notice number.</u> If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Barbara Payne
