Exhibit B

reserved and intended to be retained for the use and benefit of the United States as a source of supply for the project.

(b) If suitable drainage or return flow water from any part of the project shall at any time be or become available at points where it can be used on lands within the District, the United States may supply such water as a part of the supply to which the lands in the District are entitled.

No Liability for Water Shortage or Interruptions

27. No liability shall accrue against the United States or the District or any of their officers, agents or employes for damage, direct or indirect, arising by reason of shortages in the quantity of water available through the project works or interruptions in water deliveries to lands in the District resulting from drouth, inaccuracy in distribution, hostile diversion, prior or superior claims, accident to or failure of facilities of the project works, whether or not attributable to negligence of officers, agents or employes of the United States or the District, or other causes of whatsoever kind. Nor shall the District's obligations to the United States under this contract be reduced by reason of such shortages or interruptions.

Lands Above Proposed Canal to Benefit
Equally With Lands Below

28. (a) It is one of the objects of this contract to provide each irrigable acre of the old lands within the District, whether located above or below the main canal, with substantially the same benefits from American Falls storage and other sources available to the District, either directly or indirectly.

(b) To carry out this object, it is agreed that:

- (1) The owners of old lands below the main canal who are entitled to water from the Big Wood or the Little Wood River or Magic Reservoir are deemed to agree that the water from those sources may be used on old lands above the main canal, and to accept in lieu of water from those sources, an equal amount of water from American Falls storage and other sources available to the District, all to the extent necessary to permit the old lands above the main canal to benefit equally, so far as possible, with the old lands below the canal in the water supply made available under this contract.
- (2) Owners of old lands entitled to receive water from Magic Reservoir are deemed to agree that, for the purposes of the provisions of (1) of this subarticle, stored water remaining in Magic Reservoir at the end of any irrigation season shall be pooled with and treated as other water subsequently stored therein which is available for the ensuing irrigation season.
- (3) Owners of old lands below the main canal are deemed to agree that, in the event extreme shortage in the water supply available from the Big Wood and the Little Wood rivers and Magic Reservoir makes it impossible for old lands above the main canal to receive substantially as

much water per irrigable acre as is received by the old lands below the main canal for any irrigation season, the old lands below the canal will not be entitled to the delivery of any water from those sources until the deficiency in the supply received by the old lands above the canal in that season has been offset in subsequent seasons, except during any period that there are waters available in the Big Wood and Little Wood rivers after Magic Reservoir is filled and the then current requirements of the old lands above the canal have been supplied.

(c) All landowners within the District who permit this contract to be executed by the District and confirmed as required under article 47, or who accept any of the benefits of this contract, shall be deemed to have consented and agreed to all the provisions of subarticle (b) of this article. In the event any such landowner refuses to comply with the provisions of that subarticle (b), he shall be denied every benefit accruing under this contract; and the District shall refuse to deliver water to any land of such landowner from the supply made available under this contract until such time as a valid enforceable agreement embodying the terms of subarticle (b) in a manner satisfactory to the Secretary has been entered into between such landowner and the District.

Adjudication Claim Report 37-609A

Parent Right 37-609A

1. General Split Right History:

WR 37-609 was split into A (2.2 cfs) and B (0.7 cfs). WR 37-609A was recombined with WR 37-609B and split into WR 609B (2.47 cfs) WR 37-609C (0.22 cfs) and WR 37-609D (0.21 cfs)
Note: The deeds used to create the second WR 37-609B only totaled 2.3875 cfs.

AJ 37-609A was created to serve as a common parent right for the combinations and splits of 37-609 claimed in the SRBA. AJ 37-609 claimed most of WR 37-609B. It was later split into parts E and F by a change of ownership. Also, a portion of WR 37-609C was claimed as AJ 37-609B. WR 37-609D was combined with other rights and is now a portion of AJ claim 37-13043. The remaining 0.12 cfs of the original WR 37-609 has been claimed as 37-10933, which was split into A and B portions by a change of ownership.

AJ 37-609B	= 0.20 cfs	From WR 37-609C
AJ 37-609D	= 0.21 cfs	Renumbered to 37-13043
AJ 37-609E	= 2.22 cfs	
AJ 37-609F	= 0.15 cfs	
AJ 37-10933	= 0.12 cfs	Split into 37-10933A and 37-10933B
Total	= 2.90 cfs
